

§416.1017

(e) *What qualifications must a psychological consultant have?* A psychological consultant used in cases where there is evidence of a mental impairment must be a qualified psychologist. For disability program purposes, a psychologist will not be considered qualified unless he or she:

(1) Is licensed or certified as a psychologist at the independent practice level of psychology by the State in which he or she practices; and

(2)(i) Possesses a doctorate degree in psychology from a program in clinical psychology of an educational institution accredited by an organization recognized by the Council on Post-Secondary Accreditation; or

(ii) Is listed in a national register of health service providers in psychology which the Commissioner of Social Security deems appropriate; and

(3) Possesses 2 years of supervised clinical experience as a psychologist in health service, at least 1 year of which is post masters degree.

(f) *Are there any limitations on what a psychological consultant can evaluate?* Psychological consultants are limited to the evaluation of mental impairments, as explained in §416.1015(d). Psychological consultants also are limited as to when they can serve as a member of a team that makes a disability determination. They may do so only when a mental impairment is the only impairment in the claim or when there is a combination of a mental impairment with another impairment but the mental impairment alone would justify a finding of disability.

§416.1017 Reasonable efforts to obtain review by a qualified psychiatrist or psychologist.

(a) The State agency must determine if additional qualified psychiatrists and psychologists are needed to make the necessary reviews (see §416.1015(d)). Where it does not have sufficient resources to make the necessary reviews, the State agency must attempt to obtain the resources needed. If the State agency is unable to obtain additional psychiatrists and psychologists because of low salary rates or fee schedules it should attempt to raise the State agency's levels of compensation

to meet the prevailing rates for psychiatrists' and psychologists' services. If these efforts are unsuccessful, the State agency will seek assistance from us. We will assist the State agency as necessary. We will also monitor the State agency's efforts and where the State agency is unable to obtain the necessary services, we will make every reasonable effort to provide the services using Federal resources.

(b) Federal resources may include the use of Federal contracts for the services of qualified psychiatrists and psychologists to review mental impairment cases. Where Federal resources are required to perform these reviews, which are a basic State agency responsibility, and where appropriate, the State agency's budget will be reduced accordingly.

(c) Where every reasonable effort is made to obtain the services of a qualified psychiatrist or psychologist to review a mental impairment case, but the professional services are not obtained, a physician who is not a psychiatrist will review the mental impairment case. For these purposes, every reasonable effort to ensure that a qualified psychiatrist or psychologist review mental impairment cases will be considered to have been made only after efforts by both State and Federal agencies as set forth in paragraphs (a) and (b) of this section are made.

§416.1018 Notifying claimant of the disability determination.

The State agency will prepare denial notices in accordance with subpart N of this part whenever it makes a disability determination which is wholly or partly unfavorable to the claimant.

ADMINISTRATIVE RESPONSIBILITIES AND REQUIREMENTS

§416.1020 General administrative requirements.

(a) The State will provide the organizational structure, qualified personnel, medical consultant services, and a quality assurance function sufficient to ensure that disability determinations are made accurately and promptly. We may impose specific administrative requirements in these areas and in those
