amount of such aid or assistance payable to each such individual and the amount of such individual's other income (as defined in § 416.2050(b)(2)), and

(2) *Additional data.* Provide SSA with such additional data at such times as SSA may reasonably require in order to properly, economically, and efficiently carry out such administration agreement. This shall include required information on changes in countable income as well as changes in special needs and circumstances that would result in a decrease in the mandatory income level being maintained by the State, unless the State has specified in the agreement that the minimum income level shall not be lowered by such changes.

§ 416.2015 Establishing eligibility.

(a) *Applications.* Any person who meets the application requirements of subpart C of this part is deemed to have filed an application for any federally administered State supplementation for which he may be eligible unless supplementation has been waived pursuant to § 416.2047. However, a supplemental statement will be required where additional information is necessary to establish eligibility or to determine the correct payment amount.

(b) *Evidentiary requirements.* The evidentiary requirements and developmental procedures of this part are applicable with respect to federally administered State supplementary payments.

(c) *Determination.* Where not inconsistent with the provisions of this subpart, eligibility for and the amount of the State supplementary payment will be determined pursuant to the provisions of subparts A through Q of this part.

(d) *Categories; aged, blind, disabled.* An applicant will be deemed to have filed for the State supplementary payment amount provided for the category under which his application for a Federal supplemental security income benefit is filed. As in the Federal supplemental security income program, an individual who establishes eligibility as a blind or disabled individual, and continually remains on the rolls, will

20 CFR Ch. III (4-1-01 Edition)

continue to be considered blind or disabled after he attains age 65.

(e) *Concurrent categories.* (1) In States where the supplementary payment provided for the aged category is higher than for the blind or disabled category aged individuals will be paid the State supplement on the basis of age.

(2) If the administration agreement pursuant to § 416.2005(b) provides for higher supplementary payments to the blind or disabled than to the aged category, then, at the option of the State, the agreement may provide that individuals who are age 65 or over at time of application and who are blind or disabled may elect to receive such higher supplementary payments.

§ 416.2020 Federally administered supplementary payments.

(a) *Payment procedures.* A federally administered State supplementary payment will be made on a monthly basis and will be included in the same check as a Federal benefit that is payable. A State supplementary payment shall be for the same month as the Federal benefit.

(b) *Maximum amount.* There is no restriction on the amount of a State supplementary payment that the Federal Government will administer on behalf of a State.

(c) *Minimum amount.* The Federal Government will not administer optional State supplementary payments in amounts less than \$1 per month. Hence, optional supplementary payment amounts of less than \$1 will be raised to a dollar.

(d) *Optional supplementation: nine categories possible.* A State may elect Federal administration of its supplementary payments for up to nine categories, depending on the assistance titles in effect in that State in January 1972 (i.e., title I, X, XIV, or XVI). It can have no more than two categories (one for individuals and one for couples) for each title in effect for January 1972:

(1) Since a State with a title XVI program had just the one title in effect, it can supplement only to two categories, the individual (aged, blind, or disabled), the couple (both of whom are aged, blind, or disabled).

(2) Other States could supplement up to nine categories, depending on the

Social Security Administration

§ 416.2025

plans they had in effect. Six of these categories would be for:

- (i) Aged Individual,
- (ii) Aged Couple,
- (iii) Blind Individual,
- (iv) Blind Couple,
- (v) Disabled Individual,
- (vi) Disabled Couple.

(3) In addition to those enumerated in paragraph (d)(2) of this section, there are three additional couple categories for which a State may elect to provide a federally administered supplement. These categories are created when one individual in the couple is:

- (i) Aged and the other blind, or
- (ii) Aged and the other disabled, or
- (iii) Blind and the other disabled.

§ 416.2025 **Optional supplementation: Countable income.**

(a) *Earned and unearned income.* No less than the amounts of earned or unearned income which were excluded in determining eligibility for or amount of a title XVI supplemental security income benefit must be excludable by a State in the Federal-State agreement for purposes of determining eligibility for or amount of the State supplementary payment.

(b) *Effect of countable income on payment amounts.* Countable income of an eligible individual or eligible couple is determined in the same manner as such income is determined under the title XVI supplemental security income program. Countable income will affect the amount of the State supplementary payments as follows:

(1) As provided in § 416.420, countable income will first be deducted from the Federal benefit rate applicable to an eligible individual or eligible couple. In the case of an eligible individual living with an ineligible spouse with income (the deeming provisions of § 416.1163 apply), the Federal benefit rate from which countable income will be deducted is the Federal benefit rate applicable to an eligible couple, except that an eligible individual's payment amount may not exceed the amount he or she would have received if he or she were not subject to the deeming provisions (§ 416.1163(e)(2)).

(2) If countable income is equal to or less than the amount of the Federal benefit rate, the full amount of the State supplementary payment as specified in the Federal agreement will be made.

(3) If countable income exceeds the amount of the Federal benefit rate, the State supplementary benefit will be reduced by the amount of such excess. In the case of an eligible individual living with an ineligible spouse with income (the deeming methodology of § 416.1163 applies), the State supplementary payment rate from which the excess income will be deducted is the higher of the State supplementary rates for an eligible couple or an eligible individual, except that an eligible individual's payment amount may not exceed the amount he or she would have received if he or she were not subject to the deeming provisions (see § 416.1163(e)(2)). For purposes of determining the State supplementary couple rate, the ineligible spouse is considered to be in the same category as the eligible individual.

(4) No State supplementary payment will be made where countable income is equal to or exceeds the sum of the Federal benefit rate and the State supplementary payment rate.

(c) *Effect of additional income exclusions on payment amounts.* A State has the option of excluding amounts of earned and unearned income in addition to the amounts it is required to exclude under paragraph (a) of this section in determining a person's eligibility for State supplementary payments. Such additional income exclusions affect the amount of the State supplementary payments as follows:

(1) Countable income (as determined under the Federal eligibility rules) will first be deducted from the Federal benefit rate applicable to an eligible individual or eligible couple.

(2) Such countable income is then reduced by the amount of the additional income exclusion specified by the State.

(3) If the remaining countable income is equal to or less than the amount of the Federal benefit rate, the full amount of the State supplementary payment will be made.
