

have contributed to the continuous period.

(ii) If the continuous period was not preceded by transitional work activity that began less than a year after VR services ended, VR services will be considered to have contributed to the continuous period only if it is reasonable to conclude that the work activity which constitutes a continuous period could not have occurred without the VR services (e.g., training).

(b) *Continuous period with medical recovery occurring before completion.* (1) If an individual medically recovers before a continuous period has been completed, VR services under paragraph (a) of this section will not be payable unless some VR services contributed to the medical recovery. VR services will be considered to have contributed to the medical recovery if—

(i) The individualized written rehabilitation program (IWRP), or in the case of an alternate participant, a similar document, included medical services; and

(ii) The medical recovery occurred, at least in part, because of these medical services. (For example, the individual's medical recovery was based on improvement in a back condition which, at least in part, stemmed from surgery initiated, coordinated or provided under an IWRP).

(2) In some instances, the State VR agency or alternate participant will not have provided, initiated, or coordinated medical services. If this happens, payment for VR services may still be possible under paragraph (a) of this section if: (i) The medical recovery was not expected by us; and (ii) the individual's impairment is determined by us to be of such a nature that any medical services provided would not ordinarily have resulted in, or contributed to, the medical cessation.

§ 416.2212 Payment for VR services in a case where an individual continues to receive disability or blindness benefits based on participation in an approved VR program.

Section 1631(a)(6) of the Act contains the criteria we will use in determining if an individual whose disability or

blindness has ceased should continue to receive disability or blindness benefits because of his or her continued participation in an approved VR program. A VR agency or alternate participant can be paid for the cost of VR services provided to an individual if the individual was receiving benefits based on this provision in a month(s) after October 1984 or, in the case of a blindness recipient, in a month(s) after March 1988. If this requirement is met, a VR agency or alternate participant can be paid for the costs of VR services provided within the period specified in § 416.2215, subject to the other payment and administrative provisions of this subpart.

§ 416.2213 Payment for VR services in a case of VR refusal.

(a) For purposes of this section, *VR refusal* means an individual's refusal to continue to accept VR services or failure to cooperate in such a manner as to preclude the individual's successful rehabilitation.

(b) No later than the 60th day after the State VR agency or alternate participant makes a preliminary finding that an individual refuses to continue to accept VR services or fails to cooperate in a VR program, the State VR agency or alternate participant shall report to the appropriate Regional Commissioner (SSA) in writing such individual's VR refusal so that we may make the determination described in § 416.2209(c).

(c) Payment can be made to a State VR agency or alternate participant for the costs of VR services provided to an individual who, after filing an application with the State VR agency or alternate participant for rehabilitation services, without good cause, refuses to continue to accept VR services or fails to cooperate in such a manner as to preclude the individual's successful rehabilitation. A State VR agency or alternate participant may be paid, subject to the provisions of this subpart, for the costs of VR services provided to an individual prior to his or her VR refusal if the individual's disability or blindness benefits have been suspended
