

will be automatically reinstated upon notice to the Director that the conviction or exclusion has been reversed or withdrawn. However, such reinstatement will not preclude the Director from instituting debarment proceedings based upon the subject matter involved.

(b) A physician, health care provider or claims representative otherwise debarred by the Director may apply for reinstatement to participate in the program by application to the Director after three years from the date of entry of the order of exclusion. Such application for reinstatement shall be addressed to the Associate Director for the Longshore program, and shall contain a statement of the basis of the application along with any supporting documentation.

(c) The Director may further investigate the merits of the reinstatement application by requiring special reporting procedures from the applicant for a probationary period not to exceed six months to be monitored by the district office where the provider maintains a place of business.

(d) At the end of aforesaid probationary period, the Director may order full reinstatement of the physician, health care provider or claims representative if such reinstatement is clearly consistent with the program goal to protect itself against fraud and abuse and, further, if the physician, health care provider or claims representative has given reasonable assurances that the basis for the debarment will not be repeated.

HEARING LOSS CLAIMS

§ 702.441 Claims for loss of hearing.

(a) Claims for hearing loss pending on or filed after September 28, 1984 (the date of enactment of Pub. L. 98-426) shall be adjudicated with respect to the determination of the degree of hearing impairment in accordance with these regulations.

(b) An audiogram shall be presumptive evidence of the amount of hearing loss on the date administered if the following requirements are met:

(1) The audiogram was administered by a licensed or certified audiologist,

by a physician certified by the American Board of Otolaryngology, or by a technician, under an audiologist's or physician's supervision, certified by the Council of Accreditation on Occupational Hearing Conservation, or by any other person considered qualified by a hearing conservation program authorized pursuant to 29 CFR 1910.95(g)(3) promulgated under the Occupational Safety and Health Act of 1970 (29 U.S.C. 667). Thus, either a professional or trained technician may conduct audiometric testing. However, to be acceptable under this subsection, a licensed or certified audiologist or otolaryngologist, as defined, must ultimately interpret and certify the results of the audiogram. The accompanying report must set forth the testing standards used and describe the method of evaluating the hearing loss as well as providing an evaluation of the reliability of the test results.

(2) The employee was provided the audiogram and a report thereon at the time it was administered or within thirty (30) days thereafter.

(3) No one produces a contrary audiogram of equal probative value (meaning one performed using the standards described herein) made at the same time. "Same time" means within thirty (30) days thereof where noise exposure continues or within six (6) months where exposure to excessive noise levels does not continue. Audiometric tests performed prior to the enactment of Public Law 98-426 will be considered presumptively valid if the employer complied with the procedures in this section for administering audiograms.

(c) In determining the amount of pre-employment hearing loss, an audiogram must be submitted which was performed prior to employment or within thirty (30) days of the date of the first employment-related noise exposure. Audiograms performed after December 27, 1984 must comply with the standards described in paragraph (d) of this section.

(d) In determining the loss of hearing under the Act, the evaluators shall use the criteria for measuring and calculating hearing impairment as published and modified from time-to-time by the American Medical Association in the *Guides to the Evaluation of Permanent*

Impairment, using the most currently revised edition of this publication. In addition, the audiometer used for testing the individual's threshold of hearing must be calibrated according to current American National Standard Specifications for Audiometers. Audiometer testing procedures required by hearing conservation programs pursuant to the Occupational Safety and Health Act of 1970 should be followed (as described at 29 CFR 1910.95 and appendices).

Subpart E—Vocational Rehabilitation

§ 702.501 Vocational rehabilitation; objective.

The objective of vocational rehabilitation is the return of permanently disabled persons to gainful employment commensurate with their physical or mental impairments, or both, through a program of reevaluation or redirection of their abilities, or retraining in another occupation, or selective job placement assistance.

§ 702.502 Vocational rehabilitation; action by district directors.

All injury cases which are likely to result in, or have resulted in, permanent disability, and which are of a character likely to require review by a vocational rehabilitation adviser on the staff of the Director, shall promptly be referred to such adviser by the district director or his designee having charge of the case. A form has been prescribed for such purpose and shall be used. Medical data and other pertinent information shall accompany the referral.

(Approved by the Office of Management and Budget under control number 1215-0051)

(Pub. L. No. 96-511)

[38 FR 26861, Sept. 26, 1973, as amended at 49 FR 18294, Apr. 30, 1984]

§ 702.503 Vocational rehabilitation; action by adviser.

The vocational rehabilitation adviser, upon receipt of the referral, shall

promptly consider the feasibility of a vocational referral or request for cooperative services from available resources or facilities, to include counseling, vocational survey, selective job placement assistance, and retraining. Public or private agencies may be utilized in arranging necessary vocational rehabilitation services under the Federal Vocational Rehabilitation Act, 29 U.S.C. 31 et seq.

§ 702.504 Vocational rehabilitation; referrals to State Employment Agencies.

Vocational rehabilitation advisers will arrange referral procedures with State Employment Service units within their assigned geographical districts for the purpose of securing employment counseling, job classification, and selective placement assistance. Referrals shall be made to State Employment Offices based upon the following:

(a) Vocational rehabilitation advisers will screen cases so as to refer only those disabled employees who are considered to have employment potential;

(b) Only employees will be referred who have permanent, compensable disabilities resulting in a significant vocational handicap and loss of wage earning capacity;

(c) Disabled employees, whose initial referral to former private employers did not result in a job reassignment or in a job retention, shall be referred for employment counseling and/or selective placement unless retraining services consideration is requested;

(d) The vocational rehabilitation advisers shall arrange for employees' referrals if it is ascertained that they may benefit from registering with the State Employment Service;

(e) Referrals will be made to appropriate State Employment Offices by letter, including all necessary information and a request for a report on the services provided the employee when he registers;

(f) The injured employee shall be advised of available job counseling services and informed that he is being referred for employment and selective placement;
