

§ 725.411

20 CFR Ch. VI (4-1-01 Edition)

additional evidence. The schedule shall contain the following information:

(1) If the claim was filed by, or on behalf of, a miner, the schedule shall contain a summary of the complete pulmonary evaluation administered pursuant to § 725.406. If the claim was filed by, or on behalf of, a survivor, the schedule shall contain a summary of any medical evidence developed by the district director pursuant to § 725.405(c).

(2) The schedule shall contain the district director's preliminary analysis of the medical evidence. If the district director believes that the evidence fails to establish any necessary element of entitlement, he shall inform the claimant of the element of entitlement not established and the reasons for his conclusions and advise the claimant that, unless he submits additional evidence, the district director will issue a proposed decision and order denying the claim.

(3) The schedule shall contain the district director's designation of a responsible operator liable for the payment of benefits. In the event that the district director has designated as the responsible operator an employer other than the employer who last employed the claimant as a miner, the district director shall include, with the schedule, a copy of the statements required by § 725.495(d) of this part. The district director may, in his discretion, dismiss as parties any of the operators notified of their potential liability pursuant to § 725.407. If the district director thereafter determines that the participation of a party dismissed pursuant to this section is required, he may once again notify the operator in accordance with § 725.407(d).

(4) The schedule shall notify the claimant and the designated responsible operator that they have the right to obtain further adjudication of the claim in accordance with this subpart, and that they have the right to submit additional evidence in accordance with this subpart. The schedule shall also notify the claimant that he has the right to obtain representation, under the terms set forth in subpart D, in order to assist him. In a case in which the district director has designated a responsible operator pursuant to para-

graph (a)(3), the schedule shall further notify the claimant that if the operator fails to accept the claimant's entitlement to benefits within the time limit provided by § 725.412, the cost of obtaining additional medical and other necessary evidence, along with a reasonable attorney's fee, shall be reimbursed by the responsible operator in the event that the claimant establishes his entitlement to benefits payable by that operator. In a case in which there is no operator liable for the payment of benefits, the schedule shall notify the claimant that the cost of obtaining additional medical and other necessary evidence, along with a reasonable attorney's fee, shall be reimbursed by the fund.

(b) The schedule shall allow all parties not less than 60 days within which to submit additional evidence, including evidence relevant to the claimant's eligibility for benefits and evidence relevant to the liability of the designated responsible operator, and shall provide not less than an additional 30 days within which the parties may respond to evidence submitted by other parties. Any such evidence must meet the requirements set forth in § 725.414 in order to be admitted into the record.

(c) The district director shall serve a copy of the schedule, together with a copy of all of the evidence developed, on the claimant, the designated responsible operator, and all other operators which received notification pursuant to § 725.407. The schedule shall be served on each party by certified mail.

§ 725.411 Initial adjudication in Trust Fund cases.

Notwithstanding the requirements of § 725.410 of this part, if the district director concludes that the results of the complete pulmonary evaluation support a finding of eligibility, and that there is no operator responsible for the payment of benefits, the district director shall issue a proposed decision and order in accordance with § 725.418 of this part.

§ 725.412 Operator's response.

(a)(1) Within 30 days after the district director issues a schedule pursuant to § 725.410 of this part containing a designation of the responsible operator

liable for the payment of benefits, that operator shall file a response with regard to its liability. The response shall specifically indicate whether the operator agrees or disagrees with the district director's designation.

(2) If the responsible operator designated by the district director does not file a timely response, it shall be deemed to have accepted the district director's designation with respect to its liability, and to have waived its right to contest its liability in any further proceeding conducted with respect to the claim.

(b) The responsible operator designated by the district director may also file a statement accepting claimant's entitlement to benefits. If that operator fails to file a timely response to the district director's designation, the district director shall, upon receipt of such a statement, issue a proposed decision and order in accordance with § 725.418 of this part. If the operator fails to file a statement accepting the claimant's entitlement to benefits within 30 days after the district director issues a schedule pursuant to § 725.410 of this part, the operator shall be deemed to have contested the claimant's entitlement.

§ 725.413 [Reserved].

§ 725.414 Development of evidence.

(a) *Medical evidence.*

(1) For purposes of this section, a medical report shall consist of a physician's written assessment of the miner's respiratory or pulmonary condition. A medical report may be prepared by a physician who examined the miner and/or reviewed the available admissible evidence. A physician's written assessment of a single objective test, such as a chest X-ray or a pulmonary function test, shall not be considered a medical report for purposes of this section.

(2)(i) The claimant shall be entitled to submit, in support of his affirmative case, no more than two chest X-ray interpretations, the results of no more than two pulmonary function tests, the results of no more than two arterial blood gas studies, no more than one report of an autopsy, no more than one report of each biopsy, and no more

than two medical reports. Any chest X-ray interpretations, pulmonary function test results, blood gas studies, autopsy report, biopsy report, and physicians' opinions that appear in a medical report must each be admissible under this paragraph or paragraph (a)(4) of this section.

(ii) The claimant shall be entitled to submit, in rebuttal of the case presented by the party opposing entitlement, no more than one physician's interpretation of each chest X-ray, pulmonary function test, arterial blood gas study, autopsy or biopsy submitted by the designated responsible operator or the fund, as appropriate, under paragraph (a)(3)(i) or (a)(3)(iii) of this section and by the Director pursuant to § 725.406. In any case in which the party opposing entitlement has submitted the results of other testing pursuant to § 718.107, the claimant shall be entitled to submit one physician's assessment of each piece of such evidence in rebuttal. In addition, where the responsible operator or fund has submitted rebuttal evidence under paragraph (a)(3)(ii) or (a)(3)(iii) of this section with respect to medical testing submitted by the claimant, the claimant shall be entitled to submit an additional statement from the physician who originally interpreted the chest X-ray or administered the objective testing. Where the rebuttal evidence tends to undermine the conclusion of a physician who prepared a medical report submitted by the claimant, the claimant shall be entitled to submit an additional statement from the physician who prepared the medical report explaining his conclusion in light of the rebuttal evidence.

(3)(i) The responsible operator designated pursuant to § 725.410 shall be entitled to obtain and submit, in support of its affirmative case, no more than two chest X-ray interpretations, the results of no more than two pulmonary function tests, the results of no more than two arterial blood gas studies, no more than one report of an autopsy, no more than one report of each biopsy, and no more than two medical reports. Any chest X-ray interpretations, pulmonary function test results, blood gas studies, autopsy report, biopsy report, and physicians'
