submission shall also include the identification of the relationship between the rates and fees for a particular class and subclass or service, the identification of the procedures and methods used to relate the residual costs which have not been attributed to any class and subclass of mail or service or groups thereof, and such other studies, information, and data relevant to the criteria established by section 3622 of the Act with appropriate explanations.

(3) The Commission may, upon the filing of a proper motion by the Postal Service, together with a showing of good cause therefor, waive certain of the above requirements if in the Commission's judgment it has been demonstrated that the proposed change in the classification schedule does not significantly change the rates and fees or the cost-revenue relationships referred to in paragraphs (h)(1)(i) through (iv) of this section.

(i) *Rejection of requests.* The Commission may reject any request under this subpart that patently fails to substantially comply with the requirements of this subpart.

§ 3001.65 Service by the Postal Service.

Immediately after the issuance of an order or orders by the Commission designating an officer of the Commission to represent the interests of the general public in a proceeding before the Commission under this subpart, the Postal Service shall serve copies of its formal request for a recommended decision and its prepared direct evidence upon such officer and the intervenors as provided in § 3001.12. Service shall also be made on persons who are limited participants.

§ 3001.67 Requests involving experimental changes.

(a) This section and §§ 3001.67a through 3001.67d apply in cases where the Postal Service requests a recommended decision pursuant to section 3623 of the Postal Reorganization Act and denominates the new service or change in an existing service as experimental in character. These sections do not apply to the situation in which a request not denominated as experimental by the Postal Service, either at the time of its filing or subsequently, is found to be justified by the Commission only on an experimental basis, following analysis of the record made in the proceedings on such a request.

(b) This section and §§ 3001.67a through 3001.67d are not intended to substitute for the rules generally governing requests for changes in the Domestic Mail Classification Schedule in cases where the treatment of the proposed changes as experimental is not justified by the character of those changes. The Commission reserves the right, in appropriate cases, to require that the normal procedures prescribed for nonexperimental cases under section 3623 be used. In determining whether the procedures for experimental cases may be used in a particular case, the Commission will consider:

(1) The novelty of the proposed change;

(2) The magnitude of the proposed change, including its effect on postal costs, postal revenues, mailing costs and practices of users of the mails, and persons or firms offering services competitive with or alternative to the service offerings of the Postal Service;

(3) The ease or difficulty of generating or gathering data with respect to the proposed change; and
