and exceptional circumstances requiring that the absence of the data in question be treated as bearing on the merits of the proposal.

[45 FR 83227, Dec. 18, 1980]

§ 3001.67c Requests involving experimental changes—plans for data collection.

(a) In any instance in which the Postal Service designates as unavailable data called for by § 3001.64, it shall, as part of its initial filing under that rule, either

(1) Describe with particularity the means it proposes to employ to collect those data, or

(2) State with particularity the reasons it believes establish that such data are unnecessary.

The Commission may by order require data to be collected during the course of the experiment which the Postal Service has not planned to collect, if it finds that a statement under paragraph (a)(2) of this section does not justify the omission to collect the particular data in issue.

(b) In the case of data which are not required to be filed under § 3001.64, but which the Postal Service intends to collect during and for the purposes of the proposed experimental change, the Postal Service shall include in its initial filing a detailed description of the data involved, the uses to which they would be put, and the methods to be employed in collecting them.

§ 3001.67d Requests involving experimental changes—time limit.

The Commission will treat cases falling under §§ 3001.67 through 3001.67d as subject to the maximum expedition consistent with procedural fairness. The schedule for adoption of a recommended decision will therefore be established, in each such case, to allow for issuance of such decision not more than 150 days from the determination of any issue as to the propriety of experimental treatment under § 3001.67 (b) and (c) in a sense favorable to such treatment, or from the date of the filing of the request, whichever occurs later. Nothing in this section shall be construed to affect the rights of the

§ 3001.69 Expedited minor classification cases—applicability.

(a) This section and §§ 3001.69a through 3001.69c apply in cases where the Postal Service requests a recommended decision pursuant to section 3623 and seeks expedited review on the ground that the requested change in mail classification is minor in character. The requirements and procedures specified in these sections apply exclusively to the Commission's consideration of requested mail classification changes which the Postal Service denominates as, and the Commission finds to be, minor in character. A requested classification change may be considered to be minor in character if it:

(1) Would not involve a change in any existing rate or fee;

(2) Would not impose any restriction in addition to pre-existing conditions of eligibility for the entry of mail in an existing subclass or category of service, or for an existing rate element or work sharing discount; and

(3) Would not significantly increase or decrease the estimated institutional cost contribution of the affected subclass or category of service.

(b) This section and §§ 3001.69a through 3001.69c are effective November 28, 2001 through November 28, 2006.
