

**PART 704—CORPORATE CREDIT
UNIONS**

- Sec.
 704.1 Scope.
 704.2 Definitions.
 704.3 Corporate credit union capital.
 704.4 Board responsibilities.
 704.5 Investments.
 704.6 Credit risk management.
 704.7 Lending.
 704.8 Asset and liability management.
 704.9 Liquidity management.
 704.10 Investment action plan.
 704.11 Corporate Credit Union Service Organizations (Corporate CUSOs).
 704.12 Permissible services.
 704.13 [Reserved]
 704.14 Representation.
 704.15 Audit requirements.
 704.16 Contracts/written agreements.
 704.17 State-chartered corporate credit unions.
 704.18 Fidelity bond coverage.
 704.19 Wholesale corporate credit unions.

APPENDIX A TO PART 704—MODEL FORMS

APPENDIX B TO PART 704—EXPANDED AUTHORITIES AND REQUIREMENTS

AUTHORITY: 12 U.S.C. 1766(a), 1781, 1789.

SOURCE: 62 FR 12938, Mar. 19, 1997, unless otherwise noted.

§ 704.1 Scope.

(a) This part establishes special rules for all federally insured corporate credit unions. Non federally insured corporate credit unions must agree, by written contract, to both adhere to the requirements of this part and submit to examinations, as determined by NCUA, as a condition of receiving shares or deposits from federally insured credit unions. This part grants certain additional authorities to federal corporate credit unions. Except to the extent that they are inconsistent with this part, other provisions of NCUA's Rules and Regulations (12 CFR chapter VII) and the Federal Credit Union Act apply to federally chartered corporate credit unions and federally insured state-chartered corporate credit unions to the same extent that they apply to other federally chartered and federally insured state-chartered credit unions, respectively.

(b) The Board has the authority to issue orders which vary from this part. This authority is provided under Section 120(a) of the Federal Credit Union Act, 12 U.S.C. 1766(a). Requests by

state-chartered corporate credit unions for waivers to this part and for expansions of authority under Appendix B of this part must be approved by the state regulator before being submitted to NCUA.

§ 704.2 Definitions.

Adjusted trading means any method or transaction whereby a corporate credit union sells a security to a vendor at a price above its current market price and simultaneously purchases or commits to purchase from the vendor another security at a price above its current market price.

Asset-backed security (ABS) means a security that is primarily serviced by the cashflows of a discrete pool of receivables or other financial assets, either fixed or revolving, that by their terms convert into cash within a finite time period plus any rights or other assets designed to assure the servicing or timely distribution of proceeds to the securityholders. This definition excludes mortgage related securities.

Capital means the sum of a corporate credit union's retained earnings, paid-in capital, and membership capital.

Capital ratio means the corporate credit union's capital divided by its moving daily average net assets.

Collateralized mortgage obligation (CMO) means a multi-class mortgage related security.

Core capital means the corporate credit union's retained earnings and paid-in capital.

Core capital ratio means the corporate credit union's core capital divided by its moving daily average net assets.

Corporate credit union means an organization that:

- (1) Is chartered under Federal or state law as a credit union;
- (2) Receives shares from and provides loan services to credit unions;
- (3) Is operated primarily for the purpose of serving other credit unions;
- (4) Is designated by NCUA as a corporate credit union;
- (5) Limits natural person members to the minimum required by state or federal law to charter and operate the credit union; and

(6) Does not condition the eligibility of any credit union to become a member on that credit union's membership in any other organization.

Daily average net assets means the average of net assets calculated for each day during the period.

Dollar roll means the purchase or sale of a mortgage backed security to a counterparty with an agreement to resell or repurchase a substantially identical security at a future date and at a specified price.

Embedded option means a characteristic of certain assets and liabilities which gives the issuer of the instrument the ability to change the features such as final maturity, rate, principal amount and average life. Options include, but are not limited to, calls, caps, and prepayment options.

Fair value means the amount at which an instrument could be exchanged in a current, arms-length transaction between willing parties, as opposed to a forced or liquidation sale. Quoted market prices in active markets are the best evidence of fair value. If a quoted market price in an active market is not available, fair value may be estimated using a valuation technique that is reasonable and supportable, a quoted market price in an active market for a similar instrument, or a current appraised value. Examples of valuation techniques include the present value of estimated future cash flows, option-pricing models, and option-adjusted spread models. Valuation techniques should incorporate assumptions that market participants would use in their estimates of values, future revenues, and future expenses, including assumptions about interest rates, default, prepayment, and volatility.

Federal funds transaction means a short-term or open-ended unsecured transfer of immediately available funds by one depository institution to another depository institution or entity.

Foreign bank means an institution which is organized under the laws of a country other than the United States, is engaged in the business of banking, and is recognized as a bank by the banking supervisory authority of the country in which it is organized.

Forward settlement of a transaction means settlement on a date later than regular-way settlement.

Immediate family member means a spouse or other family member living in the same household.

Limited liquidity investment means a private placement or funding agreement.

Member reverse repurchase transaction means an integrated transaction in which a corporate credit union purchases a security from one of its member credit unions under agreement by that member credit union to repurchase the same security at a specified time in the future. The corporate credit union then sells that same security, on the same day, to a third party, under agreement to repurchase it on the same date on which the corporate credit union is obligated to return the security to its member credit union.

Membership capital means funds contributed by members that: are adjustable balance with a minimum withdrawal notice of 3 years or are term certificates with a minimum term of 3 years; are available to cover losses that exceed retained earnings and paid-in capital; are not insured by the NCUSIF or other share or deposit insurers; and cannot be pledged against borrowings.

Mortgage related security means a security as defined in section 3(a)(41) of the Securities Exchange Act of 1934, 15 U.S.C. 78c(a)(41), e.g., a privately-issued security backed by mortgages secured by real estate upon which is located a dwelling, mixed residential and commercial structure, residential manufactured home, or commercial structure that is rated in one of the two highest rating categories by at least one nationally recognized statistical rating organization.

Moving daily average net assets means the average of daily average net assets for the month being measured and the previous 11 months.

NCUA means NCUA Board (Board), unless the particular action has been delegated by the Board.

Net assets means total assets less Central Liquidity Facility (CLF) stock subscriptions, CLF loans guaranteed by the NCUSIF, U.S. Central CLF certificates, and member reverse repurchase transactions. For its own account, a

corporate credit union's payables under reverse repurchase agreements and receivables under repurchase agreements may be netted out if the Generally Accepted Accounting Principles (GAAP) conditions for offsetting are met.

Net economic value (NEV) means the fair value of assets minus the fair value of liabilities. All fair value calculations must include the value of forward settlements and embedded options. The amortized portion of membership capital and paid-in capital, which do not qualify as capital, are treated as liabilities for purposes of this calculation. The NEV ratio is calculated by dividing NEV by the fair value of assets.

Obligor means the primary party obligated to repay an investment, e.g., the issuer of a security, the taker of a deposit, or the borrower of funds in a federal funds transaction. Obligor does not include an originator of receivables underlying an asset-backed security, the servicer of such receivables, or an insurer of an investment.

Official means any director or committee member.

Paid-in capital means accounts or other interests of a corporate credit union that: are perpetual, non-cumulative dividend accounts; are available to cover losses that exceed retained earnings; are not insured by the NCUSIF or other share or deposit insurers; and cannot be pledged against borrowings.

Pair-off transaction means a security purchase transaction that is closed out or sold at, or prior to, the settlement or expiration date.

Quoted market price means a recent sales price or a price based on current bid and asked quotations.

Regular-way settlement means delivery of a security from a seller to a buyer within the time frame that the securities industry has established for immediate delivery of that type of security. For example, regular-way settlement of a Treasury security includes settlement on the trade date ("cash"), the business day following the trade date ("regular way"), and the second business day following the trade date ("skip day").

Repurchase transaction means a transaction in which a corporate credit union agrees to purchase a security

from a counterparty and to resell the same or any identical security to that counterparty at a specified future date and at a specified price.

Residual interest means the remainder cash flows from a CMO or ABS transaction after payments due bondholders and trust administrative expenses have been satisfied.

Retained earnings means the total of the corporate credit union's undivided earnings, reserves, and any other appropriations designated by management or regulatory authorities. For purposes of this regulation, retained earnings does not include the allowance for loan and lease losses account, accumulated unrealized gains and losses on available for sale securities, or other comprehensive income items.

Retained earnings ratio means the corporate credit union's retained earnings divided by its moving daily average net assets.

Section 107(8) institution means an institution described in Section 107(8) of the Federal Credit Union Act (12 U.S.C. 1757(8)).

Securities lending means lending a security to a counterparty, either directly or through an agent, and accepting collateral in return.

Senior management employee means a chief executive officer, any assistant chief executive officer (e.g., any assistant president, any vice president or any assistant treasurer/manager), and the chief financial officer (controller).

Settlement date means the date originally agreed to by a corporate credit union and a counterparty for settlement of the purchase or sale of a security.

Short sale means the sale of a security not owned by the seller.

Small business related security means a security as defined in Section 3(a)(53) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(53)), i.e., a security, rated in one of the four highest rating categories by a nationally recognized statistical rating organization, that represents ownership of one or more promissory notes or leases of personal property which evidence the obligation of a small business concern. It does not mean a security issued or guaranteed by the Small Business Administration.

§ 704.3

12 CFR Ch. VII (1-1-04 Edition)

Stripped mortgage-backed security means a security that represents either the principal or interest only portion of the cash flows of an underlying pool of mortgages.

Trade date means the date a corporate credit union originally agrees, whether orally or in writing, to enter into the purchase or sale of a security.

Weighted average life means the weighted average time to principal repayment of a security based upon the proportional balances of the cash flows that make up the security.

When-issued trading means the buying and selling of securities in the period between the announcement of an offering and the issuance and payment date of the securities.

Wholesale corporate credit union means a corporate credit union which primarily serves other corporate credit unions.

[62 FR 12938, Mar. 19, 1997, as amended at 67 FR 65651, Oct. 25, 2002]

§ 704.3 Corporate credit union capital.

(a) *Capital plan.* A corporate credit union must develop and ensure implementation of written short- and long-term capital goals, objectives, and strategies which provide for the building of capital consistent with regulatory requirements, the maintenance of sufficient capital to support the risk exposures that may arise from current and projected activities, and the periodic review and reassessment of the capital position of the corporate credit union.

(b) *Requirements for membership capital*—(1) *Form.* Membership capital funds may be in the form of a term certificate or an adjusted balance account.

(2) *Disclosure.* The terms and conditions of a membership capital account must be disclosed to the recorded owner of the account at the time the account is opened and at least annually thereafter.

(i) The initial disclosure must be signed by either all of the directors of the member credit union or, if authorized by board resolution, the chair and secretary of the board; and

(ii) The annual disclosure notice must be signed by the chair of the corporate credit union. The chair must sign a statement that certifies that the

notice has been sent to member credit unions with membership capital accounts. The certification must be maintained in the corporate credit union's files and be available for examiner review.

(3) *Three-year remaining maturity.* When a membership capital account has been placed on notice or has a remaining maturity of less than three years, the amount of the account that can be considered membership capital is reduced by a constant monthly amortization that ensures membership capital is fully amortized one year before the date of maturity or one year before the end of the notice period. The full balance of a membership capital account being amortized, not just the remaining non-amortized portion, is available to absorb losses in excess of the sum of retained earnings and paid-in capital until the funds are released by the corporate credit union at the time of maturity or the conclusion of the notice period.

(4) *Release.* Membership capital may not be released due solely to the merger, charter conversion or liquidation of a member credit union. In the event of a merger, the membership capital transfers to the continuing credit union. In the event of a charter conversion, the membership capital transfers to the new institution. In the event of liquidation, the membership capital may be released to facilitate the payout of shares with the prior written approval of the OCCU Director.

(5) *Sale.* A member may sell its membership capital to another member in the corporate credit union's field of membership, subject to the corporate credit union's approval.

(6) *Liquidation.* In the event of liquidation of a corporate credit union, membership capital is payable only after satisfaction of all liabilities of the liquidation estate, including uninsured share obligations to shareholders and the National Credit Union Share Insurance Fund (NCUSIF), but excluding paid-in capital.

(7) *Merger.* In the event of a merger of a corporate credit union, membership capital transfers to the continuing corporate credit union. The minimum three-year notice period for withdrawal
