

Federal Trade Commission

§ 24.0

completely and permanently encased in a nonmetallic covering, field pieces and bezels for locket¹ and wire pegs or rivets used for applying mountings and other ornaments, which mountings or ornaments shall be of the quality marked.

NOTE: Exemptions recognized in the industry and not to be considered in any assay for quality of a karat gold optical product include: the hinge assembly (barrel or other special types such as are customarily used in plastic frames); washers, bushings, and nuts of screw assemblies; dowels; springs for spring shoe straps; metal parts permanently encased in a non-metallic covering; and for oxfords,² coil and joint springs.

(b) Exemptions recognized in the industry and not to be considered in any assay for quality of a gold filled, gold overlay and rolled gold plate industry product, other than watchcases, include joints, catches, screws, pin stems, pins of scarf pins, hat pins, etc., field pieces and bezels for locket, posts and separate backs of lapel buttons, bracelet and necklace snap tongues, springs, and metallic parts completely and permanently encased in a nonmetallic covering.

NOTE: Exemptions recognized in the industry and not to be considered in any assay for quality of a gold filled, gold overlay and rolled gold plate optical product include: screws; the hinge assembly (barrel or other special types such as are customarily used in plastic frames); washers, bushings, tubes and nuts of screw assemblies; dowels; pad inserts; springs for spring shoe straps, cores and/or inner windings of comfort cable temples; metal parts permanently encased in a non-metallic covering; and for oxfords, the handle and catch.

(c) Exemptions recognized in the industry and not to be considered in any assay for quality of a silver industry product include screws, rivets, springs, spring pins for wrist watch straps; posts and separable backs of lapel buttons; wire pegs, posts, and nuts used for applying mountings or other ornaments, which mountings or ornaments shall be of the quality marked; pin stems (e.g., of badges, brooches, emblem pins, hat pins, and scarf pins, etc.); levers for belt buckles; blades and skeletons of pocket knives; field pieces and bezels for locket; bracelet and

¹Field pieces of locket are those inner portions used as frames between the inside edges of the locket and the spaces for holding pictures. Bezels are the separable inner metal rings to hold the pictures in place.

²Oxfords are a form of eyeglasses where a flat spring joins the two eye rims and the tension it exerts on the nose serves to hold the unit in place. Oxfords are also referred to as pince nez.

necklace snap tongues; any other joints, catches, or screws; and metallic parts completely and permanently encased in a non-metallic covering.

(d) Exemptions recognized in the industry and not to be considered in any assay for quality of an industry product of silver in combination with gold include joints, catches, screws, pin stems, pins of scarf pins, hat pins, etc., posts and separable backs of lapel buttons, springs, and metallic parts completely and permanently encased in a nonmetallic covering.

(e) Exemptions recognized in the industry and not to be considered in any assay for quality of a platinum industry product include springs, winding bars, sleeves, crown cores, mechanical joint pins, screws, rivets, dust bands, detachable movement rims, hat-pin stems, and bracelet and necklace snap tongues. In addition, the following exemptions are recognized for products marked in accordance with section 23.8(b)(5) of these Guides (i.e., products that are less than 500 parts per thousand platinum): pin tongues, joints, catches, lapel button backs and the posts to which they are attached, scarf-pin stems, hat pin sockets, shirt-stud backs, vest-button backs, and ear-screw backs, provided such parts are made of the same quality platinum as is used in the balance of the article.

PART 24—GUIDES FOR SELECT LEATHER AND IMITATION LEATHER PRODUCTS

Sec.

24.0 Scope and purpose of guides.

24.1 Deception (general).

24.2 Deception as to composition.

24.3 Misuse of the terms "waterproof," "dustproof," "warpproof," "scuffproof," "scratchproof," "scuff resistant," or "scratch resistant."

AUTHORITY: 15 U.S.C. 45, 46.

SOURCE: 61 FR 51583, Oct. 3, 1996, unless otherwise noted.

§ 24.0 Scope and purpose of guides.

(a) The Guides in this part apply to the manufacture, sale, distribution, marketing, or advertising of all kinds or types of leather or simulated-leather trunks, suitcases, traveling bags, sample cases, instrument cases, brief cases, ring binders, billfolds, wallets, key cases, coin purses, card cases, French purses, dressing cases, stud boxes, tie cases, jewel boxes, travel kits, gadget bags, camera bags, ladies' handbags, shoulder bags, purses, pocketbooks, footwear, belts (when not sold as part

of a garment) and similar articles (hereinafter, “industry products”).

(b) These Guides represent administrative interpretations of laws administered by the Federal Trade Commission for the guidance of the public in conducting its affairs in conformity with legal requirements. These Guides specifically address the application of section 5 of the FTC Act (15 U.S.C. 45) to the manufacture, sale, distribution, marketing, and advertising of industry products listed in paragraph (a) of this section. They provide the basis for voluntary compliance with such laws by members of industry. Conduct inconsistent with the positions articulated in these Guides may result in corrective action by the Commission under section 5 if, after investigation, the Commission has reason to believe that the behavior falls within the scope of conduct declared unlawful by the statute.

§ 24.1 Deception (general).

It is unfair or deceptive to misrepresent, directly or by implication, the kind, grade, quality, quantity, material content, thickness, finish, serviceability, durability, price, origin, size, weight, ease of cleaning, construction, manufacture, processing, distribution, or any other material aspect of an industry product.

§ 24.2 Deception as to composition.

It is unfair or deceptive to misrepresent, directly or by implication, the composition of any industry product or part thereof. It is unfair or deceptive to use the unqualified term “leather” or other unqualified terms suggestive of leather to describe industry products unless the industry product so described is composed in all substantial parts of leather.¹ This section includes, but is not limited to, the following:

¹For purposes of these Guides, footwear is composed of three parts: the upper, the lining and sock, and the outersole. These three parts are defined as follows: (1) The upper is the outer face of the structural element which is attached to the outersole; (2) the lining and sock are the lining of the upper and the insole, constituting the inside of the footwear article; and (3) the outersole is the bottom part of the footwear article subjected to abrasive wear and attached to the upper.

(a) *Imitation or simulated leather.* If all or part of an industry product is made of non-leather material that appears to be leather, the fact that the material is not leather, or the general nature of the material as something other than leather, should be disclosed. For example: Not leather; Imitation leather; Simulated leather; Vinyl; Vinyl coated fabric; or Plastic.

(b) *Embossed or processed leather.* The kind and type of leather from which an industry product is made should be disclosed when all or part of the product has been embossed, dyed, or otherwise processed so as to simulate the appearance of a different kind or type of leather. For example:

(1) An industry product made wholly of top grain cowhide that has been processed so as to imitate pigskin may be represented as being made of Top Grain Cowhide.

(2) Any additional representation concerning the simulated appearance of an industry product composed of leather should be immediately accompanied by a disclosure of the kind and type of leather in the product. For example: Top Grain Cowhide With Simulated Pigskin Grain.

(c) *Backing material.* (1) The backing of any material in an industry product with another kind of material should be disclosed when the backing is not apparent upon casual inspection of the product, or when a representation is made which, absent such disclosure, would be misleading as to the product’s composition. For example: Top Grain Cowhide Backed With Vinyl.

(2) The composition of the different backing material should be disclosed if it is visible and consists of non-leather material with the appearance of leather, or leather processed so as to simulate a different kind of leather.

(d) *Misuse of trade names, etc.* A trade name, coined name, trademark, or other word or term, or any depiction or device should not be used if it misrepresents, directly or by implication, that an industry product is made in whole or in part from animal skin or hide, or that material in an industry product is leather or other material. This includes, among other practices, the use of a stamp, tag, label, card, or other device in the shape of a tanned
