

§ 101-42.203

item in accordance with OSHA requirements (29 CFR 1910.1200) regarding the actual or potential hazard associated with the handling, storage, or use of the item to include hazardous chemical(s) contained and the name of the chemical manufacturer, importer, or responsible party as defined at 29 CFR 1910.1200(c). Such information shall be maintained in the item record for use in preparation of reports of excess property, reassignment or transfer documentation, and other documentation requirements that may arise.

§ 101-42.203 Reassignment of hazardous materials.

When hazardous materials are reassigned within an executive agency, information on the actual or potential hazard shall be included in the documentation effecting the reassignment, and the recipient organization shall perpetuate in the inventory or control records visibility of the nature of the actual or potential hazard.

§ 101-42.204 Reporting requirements.

(a) Except as set forth in this 101-42.204, excess personal property which has been identified as hazardous shall be reported promptly in accordance with this part and §101-43.4801, with a complete description of the actual or potential hazard associated with the handling, storage, or use of the item.

(b) If the hazardous characteristics of the item are adequately described on a MSDS or HMIS record (or equivalent), the reporting document should so indicate, and a copy of the MSDS or HMIS record shall be included. If no MSDS or HMIS is available, information must be obtained by the reporting activity and furnished with the reporting document. A certification by a duly authorized agency official that the item has been clearly labeled as prescribed in §101-42.202(e) should be included in the description of the hazard. The agency official must also certify that the containers and/or packaging meet or exceed Department of Transportation specifications for a hazardous material container (49 CFR parts 178-180).

(c) Hazardous wastes shall not be reported to GSA for disposal, and shall be disposed of by the holding agency or the reporting activity only under the

41 CFR Ch. 101 (7-1-02 Edition)

Environmental Protection Agency (EPA) and State and local regulations. Holding agencies shall contact the manufacturer, the agency's technical staff, or the local State EPA office for assistance in this matter if needed.

§ 101-42.205 Exceptions to reporting.

(a) When the actual or potential hazard is such that an item is determined by the holding agency to be extremely hazardous property, the item shall not be reported on Standard Form (SF) 120, Report of Excess Personal Property, unless so directed by a GSA regional office or GSA Central Office. Other items identified as hazardous shall be reported to GSA on SF 120 unless otherwise excepted by §§101-43.304 and 101-43.305.

(b) When an item determined to be extremely hazardous property becomes excess, the holding agency shall notify the appropriate GSA regional personal property office, identify the item, and describe the actual or potential hazard associated with the handling, storage, or use of the item. On a case-by-case basis, the GSA regional office will determine the utilization, donation, sales, or other disposal requirements, and provide appropriate guidance to the holding agency.

(c) When EPA, under its authorities, transfers accountability for hazardous materials to Federal, State, and local agencies, to research institutions, or to commercial businesses to conduct research or to perform the actual cleanup of a contaminated site, the item is not required to be reported.

§ 101-42.206 Special requirements for utilization of hazardous materials and certain categories of property.

Special utilization requirements for certain categories of property are provided in §101-42.1102. Many hazardous materials require special storage and handling. It is the responsibility of the holding agency to properly store hazardous materials and ensure the use of appropriate safeguards such as warning signs, labels, and use of protective clothing and equipment by utilization screeners who are inspecting excess hazardous materials.
