(b) *State agencies.* State agencies or the donee when applicable, shall prepare Standard Form (SF) 123, Transfer Order Surplus Personal Property, under § 101-44.4901-123-1. A full description of the actual or potential hazard associated with handling, storage, or use of the item must be made available by providing an MSDS, HMIS data, or a narrative description in block 12c or included as an addendum to the SF 123. Such description shall comply with the requirements of 29 CFR 1910.1200. The State agency and/or donee shall sign the certification in § 101-42.301(b). Any applicable requirements and restrictions shall be forwarded with the SF 123 to the GSA regional office.

(c) *General Services Administration.* GSA, through its regional offices, shall be responsible for approving the transfer for donation of hazardous materials. Before approving any donation of a hazardous material, the GSA regional office shall make sure all required certifications and agreements accompany the SF 123.

§ 101-42.303 Hazardous materials distributed to donees by State agencies.

It is the responsibility of the Federal holding agency or State agency to properly store hazardous materials, ensure the use of appropriate safeguards, and provide instructions for personal protection to donation screeners who are inspecting surplus hazardous materials. It is the responsibility of the State agency and/or donee to comply with DOT regulations (49 CFR part 171 *et seq.*) when transporting hazardous materials. Any costs incident to repacking or recontainerization will be borne by the State agency and/or donee. State agencies and/or donees will comply with EPA's Resource Conservation and Recovery Act (40 CFR part 261 *et seq.*) including its application to transporters, storers, users, and permitting of hazardous wastes. Such requirements may be administered by various States instead of the EPA.
