Subpart 2801—Terms and Conditions of Rights-of-Way Grants and Temporary Use Permits

§ 2801.1 Nature of interest.

§ 2801.1-1 Nature of right-of-way interest.

(a) All rights in public lands subject to a right-of-way grant or temporary use permit not expressly granted are retained and may be exercised by the United States. These rights include, but are not limited to:

(1) A continuing right of access onto the public lands covered by the right-of-way grant or temporary use permit, and upon reasonable notice to the holder, access and entry to any facility constructed on the right-of-way or permit area:

(2) The right to require common use of the right-of-way, and the right to authorize use of the right-of-way for compatible uses (including the subsurface and air space).

(b) A right-of-way grant or temporary use permit may be used only for the purposes authorized. The holder may allow others to use the land as his/her agent in exercising the rights granted.

(c) All right-of-way grants and temporary use permits shall be issued subject to valid existing rights.

(d) A right-of-way grant or temporary use permit shall not give or authorize the holder to take from the public lands any mineral or vegetative

material, including timber, without securing authorization under the Materials Act (30 U.S.C. 601 *et seq.*), and paying in advance the fair market value of the material cut, removed, used, or destroyed. However, common varieties of stone and soil necessarily removed in the construction of a project may be used elsewhere along the same right-of-way or permit area in the construction of the project without additional authorization and payment. The holder shall be allowed in the performance of normal maintenance to do minor trimming, pruning and clearing of vegetative material within the right-of-way or permit area and around facilities constructed thereon without additional authorization and payments. At his discretion and when it is in the public interest, the authorized officer may in lieu of requiring an advance payment for any mineral or vegetative materials, including timber, cut or excavated, require the holder to stockpile or stack the material as designated locations for later disposal by the United States.

(e) A holder of a right-of-way grant or temporary use permit may assign a grant or permit to another, provided the holder obtains the written approval of the authorized officer.

(f) The holder of a right-of-way grant may authorize other parties to use a facility constructed, except for roads, on the right-of-way with the prior written consent of the authorized officer and charge for such use. In any such arrangement, the holder shall continue to be responsible for compliance with all conditions of the grant. This paragraph does not limit in any way the authority of the authorized officer to issue additional right-of-way grants or temporary use permits for compatible uses on or adjacent to the right-of-way, nor does it authorize the holder to impose charges for the use of lands made subject to such additional right-of-way grants or temporary use permits. However, the holder of a right-of-way grant for communication purposes may authorize other parties to use a facility, without prior written consent of the authorized officer, if so provided by terms and conditions of the grant.

(g) Each right-of-way grant or temporary use permit shall describe the
