

Subpart 3265—Inspection, Enforcement, and Noncompliance for Drilling Operations

Subpart 3266—Confidential, Proprietary Information

§ 3265.10 What part of my drilling operations may BLM inspect?

§ 3266.10 Will BLM disclose information I submit under these regulations?

(a) We may inspect all of your drilling operations regardless of surface ownership. We will inspect your operations for compliance with the requirements of 43 CFR 3200.4.

All Federal and Indian data and information submitted to the BLM are subject to part 2 of this title. Part 2 includes the regulations of the Department of the Interior covering public disclosure of data and information contained in Department of Interior records. Certain mineral information not protected from disclosure under part 2 may be made available for inspection without a Freedom Of Information Act (FOIA) request. BLM will not treat surface location, surface elevation, or well status information as confidential.

(b) We may also inspect all of your maps, well logs, surveys, records, books, and accounts related to your drilling operation. You must keep this information available for our inspection.

§ 3265.11 What records must I keep available for inspection?

§ 3266.11 When I submit confidential, proprietary information, how can I help ensure it is not available to the public?

You must keep a complete record of all aspects of your activities related to your drilling operation available for our inspection. Store these records in a place which makes them conveniently available to us. Examples of records which we will inspect include:

When you submit data and information that you believe to be exempt from disclosure by 43 CFR part 2, you must clearly mark each page that you believe contains confidential information. BLM will keep all data and information confidential to the extent allowed by 43 CFR 2.13(c).

- (a) Well logs;
- (b) Directional surveys;
- (c) Casing type and setting;
- (d) Formations penetrated;
- (e) Well test results;
- (f) Characteristics of the geothermal resource;
- (g) Emergency procedure training; and
- (h) Operational problems.

§ 3265.12 What will BLM do if my operations do not comply with all requirements?

§ 3266.12 How long will information I give BLM remain confidential or proprietary?

(a) We will issue you a written Incident of Noncompliance, directing you to take required corrective action within a specific time period. If the noncompliance continues or is of a serious nature, we will take one or more of the following actions:

The FOIA does not provide a finite period of time for which information may be exempt from disclosure to public. Each situation will need to be reviewed individually and in accordance with guidance provided by 43 CFR part 2.

- (1) Enter your lease, and correct any deficiencies at your expense;
- (2) Collect all or part of your bond;
- (3) Direct modification or shutdown of your operations; and
- (4) Take action against a lessee who is ultimately responsible for non-compliance.

Subpart 3267—Geothermal Drilling Operations Relief and Appeals

§ 3267.10 May I request a variance from any BLM requirements which apply to my drilling operations?

(b) Noncompliance may result in BLM canceling your lease. See 43 CFR 3213.23 through 3213.25.

(a) Yes, you may request a variance regarding your approved drilling operations from the requirements of 43 CFR 3200.4. Your request must include enough information to explain:

- (1) Why you cannot comply; and

§ 3267.11

(2) Why you need the variance to control your well, conserve natural resources, protect public health and safety, property, or the environment.

(b) We may approve your request verbally or in writing. If BLM gives you a verbal approval, we will follow up with written confirmation.

§ 3267.11 How may I appeal a BLM decision regarding my drilling operations?

You may appeal our decisions regarding your drilling operations in accordance with 43 CFR 3200.5.

Subpart 3270—Utilization of Geothermal Resources—General

§ 3270.10 What types of geothermal operations are governed by the utilization regulations?

(a) The regulations in 43 CFR subparts 3270 through 3279 cover the permitting and operating procedures for the utilization of geothermal resources. This includes:

- (1) Electrical generation facilities;
- (2) Direct use facilities;
- (3) Related utilization facility operations;
- (4) Actual and allocated well field production and injection; and
- (5) Related well field operations.

(b) The utilization regulations in subparts 3270 through 3279 do not address conducting exploration operations, which are covered in subpart 3250 of this part, or drilling wells intended for production or injection, which are covered in subpart 3260 of this part.

§ 3270.11 What general standards apply to my utilization operations?

Your utilization operations must:

- (a) Meet all operational and environmental standards;
- (b) Prevent unnecessary impacts to surface and subsurface resources;
- (c) Result in the maximum ultimate recovery;
- (d) Result in the beneficial use of geothermal resources with minimum waste;
- (e) Protect public health, safety and property; and,
- (f) Comply with the requirements of 43 CFR 3200.4.

43 CFR Ch. II (10–1–02 Edition)

§ 3270.12 What other orders or instructions may BLM issue me?

(a) Geothermal resource operational orders, for detailed requirements that apply nationwide;

(b) Notices to lessees, for detailed requirements on a statewide or regional basis;

(c) Other orders and instructions specific to a field or area;

(d) Permit conditions of approval; and

(e) Verbal orders which will be confirmed in writing.

Subpart 3271—Utilization Operations: Getting a Permit

§ 3271.10 What do I need to start preparing a site and building and testing a utilization facility on Federal land leased for geothermal resources?

If you want to use Federal land to produce geothermal power, you have to get a site license and construction permit before you even start preparing the site. Send BLM a plan that shows what you want to do and write up a proposed site license agreement that you think is fair and reasonable. We will review it and decide whether or not to give you a permit and license to proceed with work on the site. Until and unless we do, don't even think about it.

§ 3271.11 Who may apply for a permit to build a utilization facility?

The lessee, the facility operator, or the unit operator may apply to build a utilization facility.

§ 3271.12 What do I need to start preliminary site investigations which may disturb the surface?

(a) You must:

(1) Fully describe your proposed operations in a sundry notice; and,

(2) File a bond meeting the requirements of either 43 CFR 3251.15 or 3273.19. See Subparts 3214 and 3215 for additional details on bonding procedures.

(b) Do not begin the site investigation or surface disturbing activity until BLM approves your sundry notice and bond.
