

fishery for that species group has not been closed, as specified in §635.28(b)(3).

(2) Persons that own or operate a vessel for which a valid commercial shark permit has been issued and on which a shark from the management unit is possessed, may sell such shark only to a dealer that has a valid permit for shark issued under this part.

(3) Regulations governing the harvest, possession, landing, purchase, and sale of shark fins are found at part 600, subpart M, of this chapter and in §635.30(c).

(4) Only dealers that have a valid permit for shark may purchase a shark from the owner or operator of a fishing vessel. Dealers may purchase a shark only from an owner or operator of a vessel who has a valid commercial permit for shark issued under this part, except that dealers may purchase a shark from an owner or operator of a vessel that does not have a commercial permit for shark if that vessel fishes exclusively in state waters. Dealers may purchase a shark from an owner or operator of fishing vessel that has a permit issued under this part only when the fishery for that species group has not been closed, as specified in §635.28(b)(3).

(5) A dealer issued a permit under this part may not purchase from an owner or operator of a fishing vessel shark fins that were not harvested in accordance with the regulations found at part 600, subpart M, of this chapter and in §635.30(c).

(d) *Swordfish.* (1) Persons that own or operate a vessel on which a swordfish in or from the Atlantic Ocean is possessed may sell such swordfish only if the vessel has a valid commercial permit for swordfish issued under this part. Persons may sell such swordfish only to a dealer who has a valid permit for swordfish issued under this part.

(2) Dealers may purchase a swordfish harvested from the Atlantic Ocean only from an owner or operator of a fishing vessel that has a valid commercial permit for swordfish issued under this part.

[64 FR 29135, May 28, 1999, as amended at 67 FR 6201, Feb. 11, 2002]

§ 635.32 Specifically authorized activities.

(a) *General.* Consistent with the provisions of §600.745 of this chapter, except as indicated in this section, NMFS may authorize for the conduct of scientific research or the acquisition of information and data, for the enhancement of safety at sea, for the purpose of collecting animals for public education or display, or for investigating the reduction of bycatch, economic discards or regulatory discards, activities otherwise prohibited by the regulations contained in this part. Activities subject to the provisions of this section include, but are not limited to, scientific research resulting in, or likely to result in, the take, harvest or incidental mortality of Atlantic HMS, exempted fishing and exempted educational activities, or programs under which regulated species retained in contravention to otherwise applicable regulations may be donated through approved food bank networks. Such activities must be authorized in writing and are subject to all conditions specified in any letter of acknowledgment, exempted fishing permit or scientific research permit issued in response to requests for authorization under this section. For the purposes of all regulated species covered under this part, NMFS has the sole authority to issue permits, authorizations, and acknowledgments. If a regulated species landed or retained under the authority of this section is subject to a quota, the fish shall be counted against the quota category as specified in the written authorization.

(b) *Scientific research activities.* For the purposes of all species covered under this part regulated under the authority of ATCA, the provisions for research plans under §600.745(a) and reports under §600.745(c)(1) of this chapter are mandatory. In such cases of authorized scientific research activities, NMFS shall issue scientific research permits. For scientific research activities involving the capture of Atlantic sharks, research plans and reports are requested; letters of acknowledgment shall be issued by NMFS as indicated under §600.745(a) of this chapter.

(c) *Exempted fishing permits.* (1) For activities consistent with the purposes of this section and §600.745(b)(1) of this

§ 635.33

chapter, other than scientific research conducted from a scientific research vessel, NMFS may issue exempted fishing permits. Application procedures shall be as indicated under § 600.745(b)(2) of this chapter, except that NMFS may consolidate requests for the purposes of obtaining public comment. In such cases, NMFS may file with the Office of the Federal Register for publication notification on an annual or, as necessary, more frequent basis to report on previously authorized exempted fishing activities and to solicit public comment on anticipated exempted fishing requests.

(2) Notwithstanding the provisions of § 600.745 of this chapter and other provisions of this part, a valid shark EFP is required to fish for, take, retain, or possess a shark in or from the Atlantic EEZ for the purposes of public display under the shark public display quota specified in § 635.27(b)(2). A valid shark EFP must be on board the harvesting vessel, must be available when the shark is landed, must be available when the shark is transported to the display facility, and must be presented for inspection upon request of an authorized officer. A shark EFP is valid for the specific time, area, gear, and species specified on it.

(3) To be eligible for a shark EFP, a person must provide all information concerning his or her identification, numbers by species of sharks to be collected, when and where they will be collected, vessel(s) and gear to be used, description of the facility where they will be displayed, and any other information that may be necessary for the issuance or administration of the permit, as requested by NMFS.

(4) Written reports on fishing activities and disposition of catch must be submitted to NMFS at an address designated by NMFS, for each fish collected within 5 days of the collection. An annual written summary report of all fishing activities and disposition of all fish collected under the permit must also be submitted to NMFS at an address designated by NMFS. NMFS will provide specific conditions and requirements, consistent with the Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks in the EFP.

50 CFR Ch. VI (10–1–02 Edition)

§ 635.33 Archival tags.

(a) *Implantation report.* Any person affixing or implanting an archival tag into a regulated species must obtain written authorization from NMFS pursuant to § 635.32. Persons so authorized to conduct archival tag implantation must provide a written report to NMFS at an address designated by NMFS, indicating the type and number of tags, the species and approximate size of the fish as well as any additional information requested in the authorization.

(b) *Landing.* Notwithstanding other provisions of this part, persons may catch, possess, retain, and land an Atlantic HMS in which an archival tag has been implanted or affixed, provided such persons comply with the requirements of paragraph (c) of this section.

(c) *Landing report.* Persons that retain an Atlantic HMS that has an archival tag must contact NMFS, prior to or at the time of landing; furnish all requested information regarding the location and method of capture; and, as instructed, remove the archival tag and return it to NMFS or make the fish available for inspection and recovery of the tag by a NMFS scientist, enforcement agent, or other person designated in writing by NMFS.

(d) *Quota monitoring.* If an Atlantic HMS landed under the authority of paragraph (b) of this section is subject to a quota, the fish will be counted against the applicable quota for the species consistent with the fishing gear and activity which resulted in the catch. In the event such fishing gear or activity is otherwise prohibited under applicable provisions of this part, the fish shall be counted against the reserve quota established for that species.

§ 635.34 Adjustment of management measures.

(a) NMFS may adjust the catch limits for BFT, as specified in § 635.23, and the quotas for BFT, shark, and swordfish, as specified in § 635.27.

(b) In accordance with the framework procedures in the Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks and the Fishery Management Plan for Atlantic Billfishes, NMFS may establish or modify for species or species groups of Atlantic HMS
