§ 635.42 Documentation requirements.

(a) *Bluefin tuna imports.* (1) Imports of all bluefin tuna products into the United States must be accompanied at the time of entry (filing of Customs Form 7501 or electronic equivalent) by an original completed approved BSD with the information and exporter's certification specified in § 635.43(a). Customs Form 7501 can be obtained by contacting U.S. Customs at <http://www.customs.treas.gov/order.htm>. Such information must be validated as specified in § 635.44(a) by a responsible government official of the country whose flag vessel caught the bluefin tuna (regardless of where the fish are first landed).

(2) Bluefin tuna imported into the United States from a country requiring a BSD tag on all such bluefin tuna available for sale must be accompanied by the appropriate BSD tag issued by that country, and said BSD tag must remain on any bluefin tuna until it reaches its final import destination. If the final import destination is the United States, the BSD tag must remain on the bluefin tuna until it is cut into portions. If the bluefin tuna portions are subsequently packaged for domestic commercial use or re-export, the BSD tag number and the issuing country must be written legibly and indelibly on the outside of the package.

(3) A dealer who sells bluefin tuna that was previously imported into the United States for domestic commercial use must provide on the original BSD that accompanied the import shipment the correct information and importer's certification specified in § 635.43(a)(13) and must note on the top of the BSD the entry number assigned at the time of filing the entry summary. The original of the completed BSD must be post-marked and mailed, or faxed, by said dealer to NMFS at an address designated by NMFS within 24 hours of the time the bluefin tuna was imported into the United States.

(b) *Bluefin tuna exports.* (1) A dealer who exports bluefin tuna that was harvested by U.S. vessels and first landed in the United States must complete an original numbered BSD issued to that dealer by NMFS. Such an individually numbered document is not transferable and may be used only once by the dealer to which it was issued to report on a specific export shipment. A dealer must provide on the BSD the correct information and exporter certification specified in § 635.43(a). The BSD must be validated as specified in § 635.44(b). A list of such officials may be obtained by contacting NMFS. A dealer requesting U.S. Government validation for exports should notify NMFS as soon as possible after arrival of the vessel to avoid delays in inspection and validation of the export shipment.

(2) A dealer who re-exports bluefin tuna that was previously imported into the United States through filing an entry summary (Customs Form 7501 or electronic equivalent) must provide on
