

Fishery Conservation and Management

§ 648.104

the Regional Administrator of any re-submitted state proposals approved subsequent to publication of the final rule and the Regional Administrator will publish a notice in the FEDERAL REGISTER to notify the public.

(iv) After considering public comment, the Regional Administrator will publish a final rule in the FEDERAL REGISTER to implement either the state specific conservation equivalency measures or coastwide measures to ensure that the applicable specified target is not exceeded.

(f) *Research quota.* See § 648.21(g).

[66 FR 36211, July 11, 2001, as amended at 66 FR 42160, Aug. 10, 2001; 67 FR 6880, Feb. 14, 2002; 67 FR 50372, Aug. 2, 2002]

§ 648.101 Closures.

(a) *EEZ closure.* The Regional Administrator shall close the EEZ to fishing for summer flounder by commercial vessels for the remainder of the calendar year by publishing notification in the FEDERAL REGISTER if he/she determines that the inaction of one or more states will cause the applicable F specified in § 648.100(a) to be exceeded, or if the commercial fisheries in all states have been closed. The Regional Administrator may reopen the EEZ if earlier inaction by a state has been remedied by that state, or if commercial fisheries in one or more states have been reopened without causing the applicable specified F to be exceeded.

(b) *State quotas.* The Regional Administrator will monitor state commercial quotas based on dealer reports and other available information and shall determine the date when a state commercial quota will be harvested. The Regional Administrator shall publish notification in the FEDERAL REGISTER advising a state that, effective upon a specific date, its commercial quota has been harvested and notifying vessel and dealer permit holders that no commercial quota is available for landing summer flounder in that state.

§ 648.102 Time restrictions.

Unless otherwise specified pursuant to § 648.107, vessels that are not eligible for a moratorium permit under § 648.4(a)(3) and fishermen subject to the possession limit may fish for sum-

mer flounder from January 1 through December 31. This time period may be adjusted pursuant to the procedures in § 648.100.

[67 FR 50372, Aug. 2, 2002]

§ 648.103 Minimum fish sizes.

(a) The minimum size for summer flounder is 14 inches (35.6 cm) TL for all vessels issued a moratorium permit under § 648.4 (a)(3), except on board party and charter boats carrying passengers for hire or carrying more than three crew members, if a charter boat, or more than five crew members, if a party boat;

(b) Unless otherwise specified pursuant to § 648.107, the minimum size for summer flounder is 17 inches (43.2 cm) TL for all vessels that do not qualify for a moratorium permit, and charter boats holding a moratorium permit if fishing with more than three crew members, or party boats holding a moratorium permit if fishing with passengers for hire or carrying more than five crew members.

(c) The minimum sizes in this section apply to whole fish or to any part of a fish found in possession, e.g., fillets, except that party and charter vessels possessing valid state permits authorizing filleting at sea may possess fillets smaller than the size specified if all state requirements are met.

[61 FR 34968, July 3, 1996, as amended at 62 FR 10478, Mar. 7, 1997; 62 FR 37157, July 11, 1997; 62 FR 63875, Dec. 3, 1997; 63 FR 27868, May 21, 1998; 66 FR 39291, July 30, 2001; 67 FR 50372, Aug. 2, 2002]

§ 648.104 Gear restrictions.

(a) *General.* (1) Otter trawlers whose owners are issued a summer flounder permit and that land or possess 100 or more lb (45.4 or more kg) of summer flounder from May 1 through October 31, or 200 lb or more (90.8 kg or more) of summer flounder from November 1 through April 30, per trip, must fish with nets that have a minimum mesh size of 5.5-inch (14.0-cm) diamond or 6.0-inch (15.2-cm) square mesh applied throughout the body, extension(s), and codend portion of the net.

(2) Mesh sizes are measured by a wedge-shaped gauge having a taper of 2 cm in 8 cm and a thickness of 2.3 mm

inserted into the meshes under a pressure or pull of 5 kg. The mesh size is the average of the measurement of any series of 20 consecutive meshes for nets having 75 or more meshes, and 10 consecutive meshes for nets having fewer than 75 meshes. The mesh in the regulated portion of the net is measured at least five meshes away from the lacings, running parallel to the long axis of the net.

(b) *Exemptions.* The minimum mesh-size requirements specified in paragraph (a)(1) of this section do not apply to:

(1) Vessels issued a summer flounder moratorium permit and fishing from November 1 through April 30 in the “exemption area,” which is east of the line that follows 72°30.0' W. long. until it intersects the outer boundary of the EEZ. Vessels fishing with a summer flounder exemption permit shall not fish west of the line. Vessels issued a permit under § 648.4(a)(3)(iii) may transit the area west or south of the line, if the vessel’s fishing gear is stowed in a manner prescribed under § 648.100(e), so that it is not “available for immediate use” outside the exempted area. The Regional Administrator may terminate this exemption if he/she determines, after a review of sea sampling data, that vessels fishing under the exemption are discarding more than 10 percent, by weight, of their entire catch of summer flounder per trip. If the Regional Administrator makes such a determination, he/she shall publish notification in the FEDERAL REGISTER terminating the exemption for the remainder of the exemption season.

(2) Vessels fishing with a two-seam otter trawl fly net with the following configuration, provided that no other nets or netting with mesh smaller than 5.5 inches (14.0 cm) are on board:

(i) The net has large mesh in the wings that measures 8 inches (20.3 cm) to 64 inches (162.6 cm).

(ii) The first body section (belly) of the net has 35 or more meshes that are at least 8 inches (20.3 cm).

(iii) The mesh decreases in size throughout the body of the net to 2 inches (5 cm) or smaller towards the terminus of the net.

(3) The Regional Administrator may terminate this exemption if he/she de-

termines, after a review of sea sampling data, that vessels fishing under the exemption, on average, are discarding more than 1 percent of their entire catch of summer flounder per trip. If the Regional Administrator makes such a determination, he/she shall publish a notice in the FEDERAL REGISTER terminating the exemption for the remainder of the calendar year.

(c) *Net modifications.* No vessel subject to this part shall use any device, gear, or material, including, but not limited to nets, net strengtheners, ropes, lines, or chafing gear, on the top of the regulated portion of a trawl net; except that, one splitting strap and one bull rope (if present) consisting of line or rope no more than 3 inches (7.2 cm) in diameter may be used if such splitting strap and/or bull rope does not constrict, in any manner, the top of the regulated portion of the net, and one rope no greater than 0.75 inches (1.9 cm) in diameter extending the length of the net from the belly to the terminus of the codend along the top, bottom, and each side of the net. “Top of the regulated portion of the net” means the 50 percent of the entire regulated portion of the net that (in a hypothetical situation) will not be in contact with the ocean bottom during a tow if the regulated portion of the net were laid flat on the ocean floor. For the purpose of this paragraph (c), head ropes shall not be considered part of the top of the regulated portion of a trawl net. A vessel shall not use any means or mesh configuration on the top of the regulated portion of the net, as defined in § 648.104(e), if it obstructs the meshes of the net or otherwise causes the size of the meshes of the net while in use to diminish to a size smaller than the minimum specified in § 648.100(a).

(d) *Mesh obstruction or constriction.* (1) A fishing vessel may not use any mesh configuration, mesh construction, or other means on or in the top of the net, as defined in paragraph (c) of this section, that obstructs the meshes of the net in any manner.

(2) No person on any vessel may possess or fish with a net capable of catching summer flounder in which the bars entering or exiting the knots twist around each other.

(e) *Stowage of nets.* Otter trawl vessels retaining 100 lb (45.3 kg) or more of summer flounder from May 1 through October 31, or 200 lb (90.6 kg) or more of summer flounder from November 1 through April 30, and subject to the minimum mesh size requirement of paragraph (a)(1) of this section may not have “available for immediate use” any net or any piece of net that does not meet the minimum mesh size requirement, or any net, or any piece of net, with mesh that is rigged in a manner that is inconsistent with the minimum mesh size requirement. A net that is stowed in conformance with one of the methods specified in § 648.23(b) and that can be shown not to have been in recent use is considered to be not “available for immediate use.”

(f) The minimum net mesh requirement may apply to any portion of the net. The minimum mesh size and the portion of the net regulated by the minimum mesh size may be adjusted pursuant to the procedures in § 648.100.

[61 FR 34968, July 3, 1996, as amended at 62 FR 63876, Dec. 3, 1997]

§ 648.105 Possession restrictions.

(a) Unless otherwise specified pursuant to § 648.107, no person shall possess more than eight summer flounder in, or harvested from, the EEZ unless that person is the owner or operator of a fishing vessel issued a summer flounder moratorium permit, or is issued a summer flounder dealer permit. Persons aboard a commercial vessel that is not eligible for a summer flounder moratorium permit are subject to this possession limit. The owner, operator, and crew of a charter or party boat issued a summer flounder moratorium permit are subject to the possession limit when carrying passengers for hire or when carrying more than five crew members for a party boat, or more than three crew members for a charter boat. This possession limit may be adjusted pursuant to the procedures in § 648.100.

(b) If whole summer flounder are processed into fillets, the number of fillets will be converted to whole summer flounder at the place of landing by dividing the fillet number by two. If summer flounder are filleted into single (butterfly) fillets, each fillet is

deemed to be from one whole summer flounder.

(c) Summer flounder harvested by vessels subject to the possession limit with more than one person on board may be pooled in one or more containers. Compliance with the daily possession limit will be determined by dividing the number of summer flounder on board by the number of persons on board, other than the captain and the crew. If there is a violation of the possession limit on board a vessel carrying more than one person, the violation shall be deemed to have been committed by the owner and operator.

(d) Owners and operators of otter trawl vessels issued a permit under § 648.4(a)(3) that fish with or possess nets or pieces of net on board that do not meet the minimum mesh requirements and that are not stowed in accordance with § 648.104(f), may not retain 100 lb (45.3 kg) or more of summer flounder from May 1 through October 31, or 200 lb (90.6 kg) or more of summer flounder from November 1 through April 30. Summer flounder on board these vessels must be stored so as to be readily available for inspection in standard 100-lb (45.3-kg) totes or fish boxes having a liquid capacity of 18.2 gal (70 L), or a volume of not more than 4,320 in³ (2.5 ft³ or 70.79 cm³).

[61 FR 34968, July 3, 1996, as amended at 62 FR 37157, July 11, 1997; 63 FR 27868, May 21, 1998; 66 FR 39292, July 30, 2001; 67 FR 50372, Aug. 2, 2002]

§ 648.106 Sea Turtle conservation.

Sea turtle regulations are found at 50 CFR parts 222 and 223.

[64 FR 57595, Oct. 26, 1999]

§ 648.107 Conservation equivalent measures for the summer flounder fishery.

(a) The Regional Administrator has determined that the recreational fishing measures proposed to be implemented by the states of Maine through North Carolina for 2002 are the conservation equivalent of the season, minimum size and possession limit prescribed in §§ 648.102, 648.103 and 648.105(a), respectively. This determination is based on a recommendation from the Summer Flounder Board of
