

§ 648.124

identification marking as required by the vessel's home port state.

[61 FR 43426, Aug. 23, 1996, as amended at 61 FR 56126, Oct. 31, 1996; 62 FR 12107, Mar. 14, 1997; 63 FR 72215, Dec. 31, 1998; 65 FR 33498, May 24, 2000; 66 FR 12911, Mar. 1, 2001; 66 FR 66357, Dec. 26, 2001]

§ 648.124 Minimum fish sizes.

(a) The minimum size for scup is 9 inches (22.9 cm) TL for all vessels issued a moratorium permit under § 648.4(a)(6). If such a vessel is also issued a charter and party boat permit and is carrying passengers for hire, or carrying more than three crew members if a charter boat, or more than five crew members if a party boat, then the minimum size specified in paragraph (b) of this section applies.

(b) The minimum size for scup is 10 inches (25.4 cm) TL for all vessels that do not have a moratorium permit, or for party and charter vessels that are issued a moratorium permit but are fishing with passengers for hire, or carrying more than three crew members if a charter boat, or more than five crew members if a party boat.

(c) The minimum size applies to whole fish or any part of a fish found in possession, e.g., fillets. These minimum sizes may be adjusted pursuant to the procedures in § 648.120.

[61 FR 43426, Aug. 23, 1996, as amended at 66 FR 39292, July 30, 2001; 67 FR 50373, Aug. 2, 2002]

§ 648.125 Possession limit.

(a) No person shall possess more than 20 scup in, or harvested from the EEZ unless that person is the owner or operator of a fishing vessel issued a scup moratorium permit, or is issued a scup dealer permit. Persons aboard a commercial vessel that is not eligible for a scup moratorium permit are subject to this possession limit. The owner, operator, and crew of a charter or party boat issued a scup moratorium permit are subject to the possession limit when carrying passengers for hire or when carrying more than five crew members for a party boat, or more than three crew members for a charter boat. This possession limit may be adjusted pursuant to the procedures in § 648.120.

50 CFR Ch. VI (10-1-02 Edition)

(b) If whole scup are processed into fillets, an authorized officer will convert the number of fillets to whole scup at the place of landing by dividing fillet number by 2. If scup are filleted into a single (butterfly) fillet, such fillet shall be deemed to be from one whole scup.

(c) Scup harvested by vessels subject to the possession limit with more than one person aboard may be pooled in one or more containers. Compliance with the daily possession limit will be determined by dividing the number of scup on board by the number of persons aboard other than the captain and crew. If there is a violation of the possession limit on board a vessel carrying more than one person, the violation shall be deemed to have been committed by the owner and operator.

(d) Scup and scup parts harvested by a vessel with a moratorium or charter or party boat scup permit, or in or from the EEZ north of 35°15.3' N. lat., may not be landed with the skin removed.

[61 FR 43426, Aug. 23, 1996, as amended at 66 FR 39292, July 30, 2001; 67 FR 50373, Aug. 2, 2002]

§ 648.126 Protection of threatened and endangered sea turtles.

This section supplements existing regulations issued to regulate incidental take of sea turtles under authority of the Endangered Species Act under 50 CFR parts 222 and 223. In addition to the measures required under those parts, NMFS will investigate the extent of take in flynet gear and if deemed appropriate, may develop and certify a Turtle Excluder Device for that gear.

[61 FR 43426, Aug. 23, 1996, as amended at 64 FR 14077, Mar. 23, 1999]

§ 648.127 Framework adjustments to management measures.

(a) *Within season management action.* See § 648.108(a).

(1) *Adjustment process.* See § 648.108(a)(1).

(2) *Council recommendation.* See § 648.108(a)(2)(i) through (iv).

(3) *NMFS action.* See § 648.108(a)(i) through (iii).

(4) *Emergency actions.* See § 648.108(a)(4).

Fishery Conservation and Management

§ 648.140

(b) [Reserved]

[64 FR 57595, Oct. 26, 1999, as amended at 64 FR 66587, Nov. 29, 1999]

Subpart I—Management Measures for the Black Sea Bass Fishery

SOURCE: 61 FR 58467, Nov. 15, 1996, unless otherwise noted.

§ 648.140 Catch quotas and other restrictions.

(a) *Annual review.* The Black Sea Bass Monitoring Committee will review the following data, subject to availability, on or before August 15 of each year to determine the allowable levels of fishing and other restrictions necessary to result in a target exploitation rate of 37 percent in 2001 and 2002; and 23 percent (based on Fmax) in 2003 and subsequent years: Commercial, recreational, and research catch data; current estimates of fishing mortality; stock status; recent estimates of recruitment; virtual population analysis results; levels of noncompliance by fishermen or individual states; impact of size/mesh regulations; sea sampling and winter trawl survey data, or if sea sampling data are unavailable, length frequency information from the winter trawl survey and mesh selectivity analyses; impact of gear other than otter trawls, pots and traps on the mortality of black sea bass; and any other relevant information.

(b) *Recommended measures.* Based on this review and requests for research quota as described in paragraph (e) of this section, the Black Sea Bass Monitoring Committee will recommend to the Demersal Species Committee of the Council and the Commission the following measures to ensure that the target exploitation rate specified in paragraph (a) of this section is not exceeded:

(1) A commercial quota allocated to quarterly periods set from a range of 0 to the maximum allowed to achieve the specified target exploitation rate, set after the deduction for research quota.

(2) A commercial possession limit for all moratorium vessels may be set from a range of zero to the maximum all

owed to assure that the quarterly quota is not exceeded, with the provision that these quantities be the maximum allowed to be landed within a 24-hour period (calendar day).

(3) Commercial minimum fish size.

(4) Minimum mesh size in the codend or throughout the net and the catch threshold that will require compliance with the minimum mesh requirement.

(5) Escape vent size.

(6) A recreational possession limit set from a range of 0 to the maximum allowed to achieve the target exploitation rate, set after the reduction for research quota.

(7) Recreational minimum fish size.

(8) Recreational season. This measure may be adjusted beginning in 1998.

(9) Restrictions on gear other than otter trawls and pots or traps.

(c) *Annual fishing measures.* The Demersal Species Committee shall review the recommendations of the Black Sea Bass Monitoring Committee. Based on these recommendations and any public comment, the Demersal Species Committee shall make its recommendations to the Council with respect to the measures necessary to assure that the target exploitation rate specified in paragraph (a) of this section is not exceeded. The Council shall review these recommendations and, based on the recommendations and public comment, make recommendations to the Regional Administrator with respect to the measures necessary to assure that the target exploitation rate specified in paragraph (a) of this section is not exceeded. Included in the recommendation will be supporting documents, as appropriate, concerning the environmental and economic impacts of the final rule. The Regional Administrator will review these recommendations and any recommendations of the Commission. After such review, the Regional Administrator will publish a proposed rule in the FEDERAL REGISTER to implement a commercial quota, a recreational harvest limit, and additional management measures for the commercial fishery. If the Regional Administrator determines that additional recreational measures are necessary to assure that the target exploitation rate specified in paragraph (a) of this section will not be exceeded, he or
