

§ 648.161

quota specified in paragraph (e)(1) of this section.

(g) Based upon any changes in the landings data available from the states for the base years 1981-89, the Commission and the Council may recommend to the Regional Administrator that the states' shares specified in paragraph (e)(1) of this section be revised. The Council's and the Commission's recommendation must include supporting documentation, as appropriate, concerning the environmental and economic impacts of the recommendation. The Regional Administrator shall review the recommendation of the Commission and the Council. After such review, NMFS will publish a proposed rule in the FEDERAL REGISTER to implement a revision in the state shares. After considering public comment, NMFS will publish a final rule in the FEDERAL REGISTER to implement the changes in allocation.

(h) *Research quota.* See § 648.21(g).

[65 FR 45852, July 26, 2000, as amended at 66 FR 42162, Aug. 10, 2001]

§ 648.161 Closures.

(a) *EEZ closure.* NMFS shall close the EEZ to fishing for bluefish by commercial vessels for the remainder of the calendar year by publishing notification in the FEDERAL REGISTER if the Regional Administrator determines that the inaction of one or more states will cause the applicable F specified in § 648.160(a) to be exceeded, or if the commercial fisheries in all states have been closed. NMFS may reopen the EEZ if earlier inaction by a state has been remedied by that state, or if commercial fisheries in one or more states have been reopened without causing the applicable specified F to be exceeded.

(b) *State quotas.* The Regional Administrator will monitor state commercial quotas based on dealer reports and other available information and shall determine the date when a state commercial quota will be harvested. NMFS shall publish notification in the FEDERAL REGISTER advising a state that, effective upon a specific date, its commercial quota has been harvested and notifying vessel and dealer permit holders that no commercial quota is

50 CFR Ch. VI (10-1-02 Edition)

available for landing bluefish in that state.

§ 648.162 Minimum fish sizes.

If the Council determines through its annual review or framework adjustment process that minimum fish sizes are necessary to assure that the fishing mortality rate is not exceeded, or to attain other FMP objective, such measures will be enacted through the procedure specified in § 648.160(d) or 648.165.

§ 648.163 Gear restrictions.

If the Council determines through its annual review or framework adjustment process that gear restrictions are necessary to assure that the fishing mortality rate is not exceeded, or to attain other FMP objectives, such measures will be enacted through the procedure specified in §§ 648.160(d) or 648.165.

§ 648.164 Possession restrictions.

(a) No person shall possess more than 15 bluefish in, or harvested from, the EEZ unless that person is the owner or operator of a fishing vessel issued a bluefish commercial permit or is issued a bluefish dealer permit. Persons aboard a vessel that is not issued a bluefish commercial permit are subject to this possession limit. The owner, operator, and crew of a charter or party boat issued a bluefish commercial permit are not subject to the possession limit when not carrying passengers for hire and when the crew size does not exceed five for a party boat and three for a charter boat.

(b) Bluefish harvested by vessels subject to the possession limit with more than one person on board may be pooled in one or more containers. Compliance with the daily possession limit will be determined by dividing the number of bluefish on board by the number of persons on board, other than the captain and the crew. If there is a violation of the possession limit on board a vessel carrying more than one person, the violation shall be deemed to have been committed by the owner and operator.
