

Fishery Conservation and Management

§ 648.21

(a) The vessel operator has a letter of authorization issued by the Regional Administrator on board the vessel;

(b) For the duration of the trip, the vessel fishes, except for transiting purposes, exclusively in the NAFO Regulatory Area and does not harvest fish in, or possess fish harvested in, or from, the EEZ;

(c) When transiting the EEZ, all gear is properly stowed in accordance with one of the applicable methods specified in § 648.23(b); and

(d) The vessel operator complies with the High Seas Fishing Compliance permit and all NAFO conservation and enforcement measures while fishing in the NAFO Regulatory Area.

[63 FR 11595, Mar. 10, 1998, as amended at 65 FR 37911, June 19, 2000]

Subpart B—Management Measures for the Atlantic Mackerel, Squid, and Butterfish Fisheries

§ 648.20 Maximum optimum yield (OYs).

The OYs specified pursuant to § 648.21 during a fishing year may not exceed the following amounts:

(a) Mackerel—that quantity of mackerel that is less than or equal to the allowable biological catch (ABC) in U.S. waters specified pursuant to § 648.21.

(b) *Loligo*—the catch associated with a fishing mortality rate of F_{max} .

(c) *Illex*—catch associated with a fishing mortality rate of F_{MSY} .

(d) Butterfish—the catch associated with a fishing mortality rate of F_{MSY} .

[61 FR 34968, July 3, 1996, as amended at 62 FR 8637, Feb. 26, 1997; 64 FR 57593, Oct. 26, 1999]

§ 648.21 Procedures for determining initial annual amounts.

(a) *Initial recommended annual specifications.* The Atlantic Mackerel, Squid, and Butterfish Monitoring Committee (Monitoring Committee) shall meet annually to develop and recommend the following specifications for consideration by the Mackerel, Squid, and Butterfish Committee of the MAFMC:

(1) Initial OY (IOY), including research quota (RQ), domestic annual

harvest (DAH), and domestic annual processing (DAP) for *Illex* squid;

(2) IOY, including RQ, DAH, DAP, and bycatch level of the total allowable level of foreign fishing (TALFF), if any, for butterfish; and

(3) IOY, including RQ, DAH, DAP, joint venture processing (JVP), if any, and TALFF, if any, for mackerel. The Monitoring Committee may also recommend that certain ratios of TALFF, if any, for mackerel to purchases of domestic harvested fish and/or domestic processed fish be established in relation to the initial annual amounts.

(4) Initial OY (IOY), including research quota (RQ), domestic annual harvest (DAH), and domestic annual processing (DAP) for *Loligo* squid, which, subject to annual review, may be specified for a period of up to 3 years;

(5) Inseason adjustment, upward or downward, to the specifications for *Loligo* squid as specified in paragraph (e) of this section.

(b) *Guidelines.* As the basis for its recommendations under paragraph (a) of this section, the Monitoring Committee shall review available data pertaining to: Commercial, recreational, and research project landings; discards; current estimates of fishing mortality; stock status; the most recent estimates of recruitment; virtual population analysis results; levels of non-compliance by harvesters or individual states; impact of size/mesh regulations; results of a survey of domestic processors and joint venture operators of estimated mackerel processing capacity and intent to use that capacity; results of a survey of fishermen's trade associations of estimated mackerel harvesting capacity and intent to use that capacity; and any other relevant information. The specifications recommended pursuant to paragraph (a) of this section must be consistent with the following:

(1) *Squid.* (i) The ABC for any fishing year must be either the maximum OY specified in § 648.20, or a lower amount, if stock assessments indicate that the potential yield is less than the maximum OY.

(ii) IOY is a modification of ABC based on social and economic factors. The IOY is composed of a RQ and DAH.
