119 .....	40°02.75' N.	70°16.1' W.

(2) *Duration.* (i) *Mobile gear.* From June 16 through September 30, no fishing vessel with mobile gear or person on a fishing vessel with mobile gear may fish, or be in Restricted Gear Area IV unless transiting. Vessels may transit this area provided that all mobile gear is on board the vessel while inside the area.

(n) *GB Seasonal Closure Area.* (1) From May 1 through May 31, no fishing vessel or person on a fishing vessel may enter, fish in, or be in, and no fishing gear capable of catching NE multispecies, unless otherwise allowed in this part, may be in the area known as the GB Seasonal Closure Area, as defined by the straight lines connecting the following points in the order stated, except as specified in paragraphs (d) and (n)(2) of this section:

GEORGES BANK SEASONAL CLOSURE AREAS

<sup>1</sup>Northward to its intersection with the shoreline of Mainland Massachusetts.

(2) Paragraph (n)(1) of this section does not apply to persons on fishing vessels or to fishing vessels:

- (i) That meet the criteria in paragraphs (g)(2) (i) or (ii) of this section;
- (ii) That are fishing as charter/party or recreational vessels; or
- (iii) That are fishing with or using scallop dredge gear when fishing under a scallop DAS or when lawfully fishing

in the Scallop Dredge Fishery Exemption Area as described in §648.80(a)(11), provided the vessel uses an 8-inch (20.3-cm) twine top and complies with the NE multispecies possession restrictions for scallop vessels specified at §648.80(h).

(o) *Conditional Cashes Ledge & Gulf of Maine Rolling Closure Areas.* (1) If the Regional Administrator determines that at least 50 percent of the average between the  $F_{0.1}$  target TAC and the  $F_{max}$  target (an amount equal to 1.67 million lb (759 mt) for the 2000 - 2001 fishing year) has been landed as of, or before, July 31 of each year, NMFS, through a timely notification action in the FEDERAL REGISTER, shall implement the following closures:

(i) *Cashes Ledge Closure Area.* From November 1 through November 30, no fishing vessel or person on a fishing vessel may enter, fish in, or be in, and no fishing gear capable of catching NE multispecies, unless otherwise allowed in this part, may be in, or on board a vessel in, the area known as the Cashes Ledge Closure Area, as described in §648.81(h)(1), except as provided in §648.81(h)(2); and

(ii) *Rolling Closure Area VI.* From January 1 through January 31, no fishing vessel or person on a fishing vessel may enter, fish in, or be in, and no fishing gear capable of catching NE multispecies, unless otherwise allowed in this part, may be in, or on board a vessel in, the area known as Rolling Closure Area VI, as described in §648.81(g)(1)(vi), except as provided in §648.81(g)(2).

[61 FR 34968, July 3, 1996, as amended at 61 FR 55777, Oct. 29, 1996; 62 FR 9379, Mar. 3, 1997; 62 FR 10748, Mar. 10, 1997; 62 FR 15388, Apr. 1, 1997; 63 FR 7730, Feb. 17, 1998; 63 FR 11595, Mar. 10, 1998; 63 FR 15331, Mar. 31, 1998; 63 FR 25416, May 8, 1998; 64 FR 24075, May 5, 1999; 64 FR 31151, June 10, 1999; 64 FR 42048, Aug. 3, 1999; 65 FR 379, Jan. 5, 2000; 65 FR 21665, Apr. 24, 2000; 65 FR 37915, June 19, 2000; 65 FR 49946, Aug. 16, 2000; 66 FR 24060, May 11, 2001; 67 FR 38609, June 5, 2002; 67 FR 50316, Aug. 1, 2002]

**§ 648.82 Effort-control program for multispecies limited access vessels.**

(a) Except as provided in §§648.17 and 648.82(a)(2), a vessel issued a limited access multispecies permit may not fish for, possess, or land regulated species,

except during a DAS as allocated under and in accordance with the applicable DAS program described in this section, unless otherwise provided elsewhere in this part.

(1) *End-of-year carry-over.* With the exception of vessels that held a Confirmation of Permit History as described in § 648.4(a)(1)(i)(J) for the entire fishing year preceding the carry-over year, limited access vessels that have unused DAS on the last day of April of any year, may carry over a maximum of 10 DAS into the next year. DAS sanctioned vessels will be credited with unused DAS based on their DAS allocation minus total DAS sanctioned.

(2) Notwithstanding any other provision of this part, any vessel issued a multispecies limited access permit may not call into the DAS program or fish under a DAS, if such vessel carries passengers for hire for any portion of a fishing trip.

(b) *DAS program—permit categories and allocations.* All limited access NE multispecies permit holders shall be assigned to one of the following DAS permit categories according to the criteria specified. For the fishing year 2002 only, permit holders that may request a change in permit category, as specified in § 648.4(a)(1)(i)(I)(2), and that were issued a limited access permit prior to August 1, 2002, may request a change in permit category one time prior to either August 31, or within 45 days of permit issuance, whichever date is later. For the fishing year 2003 permit holders may request a change in permit category as specified in § 648.4(a)(1)(i)(I)(2). Each fishing year shall begin on May 1 and extend through April 30 of the following year. Beginning August 1, 2002, with the exception of the Small Vessel category described in paragraph (b)(3) of this section, NE multispecies DAS available for use will be calculated as described below.

(1) *Individual DAS category—DAS allocation.* Beginning August 1, 2002, for a vessel fishing under the Individual DAS category, NE multispecies DAS available for use for the May 1, 2002, through April 30, 2003, fishing year, and for the next fishing year, will be calculated based upon the fishing history associated with the vessel's permit, as de-

scribed in paragraph (1)(1) of this section, as reduced as specified in paragraph (1)(2) of this section.

(2) *Fleet DAS category—DAS allocation.* Beginning August 1, 2002, for a vessel fishing under the Fleet DAS category, NE multispecies DAS available for use for the May 1, 2002, through April 30, 2003, fishing year, and for the next fishing year, will be calculated based upon the fishing history associated with the vessel's permit, as described in paragraph (1)(1) of this section, as reduced as specified in paragraph (1)(2) of this section.

(3) *Small Vessel category—(i) DAS allocation.* A vessel qualified and electing to fish under the Small Vessel category may retain up to 300 lb (136.1 kg) of cod, haddock, and yellowtail flounder, combined, and one Atlantic halibut per trip, without being subject to DAS restrictions, provided the vessel does not exceed the yellowtail flounder possession restrictions specified under § 648.86(h). Such a vessel is not subject to a possession limit for other NE multispecies. Any vessel may elect to switch into this category, as provided in § 648.4(a)(1)(i)(I)(2), if such vessel meets or complies with the following:

(ii) The vessel is 30 ft (9.1 m) or less in length overall as determined by measuring along a horizontal line drawn from a perpendicular raised from the outside of the most forward portion of the stem of the vessel to a perpendicular raised from the after most portion of the stern.

(iii) If construction of the vessel was begun after May 1, 1994, the vessel must be constructed such that the quotient of the overall length divided by the beam is not less than 2.5.

(iv) Acceptable verification for vessels 20 ft (6.1 m) or less in length shall be USCG documentation or state registration papers. For vessels over 20 ft (6.1 m) in length, the measurement of length must be verified in writing by a qualified marine surveyor, or the builder, based on the vessel's construction plans, or by other means determined acceptable by the Regional Administrator. A copy of the verification must accompany an application for a NE multispecies permit.

(v) Adjustments to the Small Vessel category requirements, including

changes to the length requirement, if required to meet fishing mortality goals, may be made by the Regional Administrator following framework procedures of § 648.90.

(4) *Hook-Gear category—DAS allocation.* Beginning August 1, 2002, for a vessel fishing under the Hook-gear category, NE multispecies DAS available for use for the May 1, 2002, through April 30, 2003, fishing year, and for the next fishing year, will be calculated based upon the fishing history associated with the vessel's permit, as described in paragraph (1)(1) of this section, as reduced as specified in paragraph (1)(2) of this section. A vessel fishing under this category in the DAS program must meet or comply with the gear restrictions specified under § 648.80(a)(3)(vii), (a)(4)(ii), (b)(2)(v) and (c)(2)(iv) when fishing in the respective regulated mesh areas.

(5) *Combination vessel category—DAS allocation.* Beginning August 1, 2002, for a vessel fishing under the Combination Vessel category, NE multispecies DAS available for use for the May 1, 2002, through April 30, 2003, fishing year, and for the next fishing year, will be calculated based upon the fishing history associated with the vessel's permit, as described in paragraph (1)(1) of this section, as reduced as specified in paragraph (1)(2) of this section.

(6) *Large Mesh Individual DAS category—DAS allocation.* Beginning August 1, 2002, for a vessel fishing under the Large Mesh Individual DAS category, NE multispecies DAS available for use for the May 1, 2002, through April 30, 2003, fishing year, and for the next fishing year, will be calculated based upon the fishing history associated with the vessel's permit, as described in paragraph (1)(1) of this section, as reduced as specified in paragraph (1)(2) of this section, and then increased by 36 percent. To be eligible to fish under the Large Mesh Individual DAS category, a vessel, while fishing under this category, must fish under the specific regulated mesh area minimum mesh size restrictions, as specified in paragraphs (a)(3)(iii), (a)(4)(iii), (b)(2)(iii) and (c)(2)(ii) of this section.

(7) *Large Mesh Fleet DAS category—DAS allocation.* Beginning August 1, 2002, for a vessel fishing under the

Large Mesh Fleet DAS category, NE multispecies DAS available for use for the May 1, 2002, through April 30, 2003, fishing year, and for the next fishing year, will be calculated based upon the fishing history associated with the vessel's permit, as described in paragraph (1)(1) of this section, as reduced as specified in paragraph (1)(2) of this section, and then increased by 36 percent. To be eligible to fish under the Large Mesh Fleet DAS category, a vessel, while fishing under this category, must fish under the specific regulated mesh area minimum mesh size restrictions, as specified in paragraphs (a)(3)(iii), (a)(4)(iii), (b)(2)(iii) and (c)(2)(ii) of this section.

(c) *1996 DAS appeals.* (1) *Previously exempted vessels.* A vessel that was issued a valid 1995 limited access multispecies permit, and that has been fishing under the small vessel (less than or equal to 45 ft (13.7 m)), hook-gear, or gillnet categories, is eligible to appeal its allocation of DAS, if it has not previously done so, as described under paragraph (d)(2) of this section. Each vessel's initial allocation of DAS will be considered to be 176 DAS for purposes of this appeal (i.e., the fleet DAS category baseline prior to the 1996–1997 reductions).

(2) *Exempted gillnet vessels that held an individual DAS permit.* A vessel that was issued a valid 1995 limited access multispecies permit and that has been fishing under both the gillnet and individual DAS categories, is eligible to appeal its allocation of gillnet DAS, as described under paragraph (d)(2) of this section. Each vessel's initial allocation of DAS will be considered to be 176 DAS for purposes of this appeal (i.e., the fleet DAS category baseline prior to the 1996–1997 reductions).

(d) *Individual DAS allocations—(1) Calculation of a vessel's individual DAS.* The DAS assigned to a vessel for purposes of determining that vessel's annual allocation under the individual DAS program is calculated as follows:

(i) Count the total number of the vessel's NE multispecies DAS for the years 1988, 1989, and 1990. NE multispecies DAS are deemed to be the total number of days the vessel was absent from port for a trip where greater than 10 percent of the vessel's total landings

were comprised of regulated species, minus any days for such trips in which a scallop dredge was used;

(ii) Exclude the year of least NE multispecies DAS; and

(iii) If 2 years of multispecies DAS are remaining, average those years' DAS; or

(iv) If only 1 year remains, use that year's DAS.

(2) *Appeal of DAS allocation*—(i) Initial allocations of individual DAS to those vessels authorized to appeal under paragraph (c) of this section may be appealed to the Regional Administrator if a request to appeal is received by the Regional Administrator no later than August 31, 1996, or 30 days after the initial allocation is made, whichever is later. Any such appeal must be in writing and be based on one or more of the following grounds:

(A) The information used by the Regional Administrator was based on mistaken or incorrect data.

(B) The applicant was prevented by circumstances beyond his/her control from meeting relevant criteria.

(C) The applicant has new or additional information.

(ii) The Regional Administrator will appoint a designee who will make an initial decision on the written appeal.

(iii) If the applicant is not satisfied with the initial decision, the applicant may request that the appeal be presented at a hearing before an officer appointed by the Regional Administrator.

(iv) The hearing officer shall present his/her findings to the Regional Administrator and the Regional Administrator will make a decision on the appeal. The Regional Administrator's decision on this appeal is the final administrative decision of the Department of Commerce.

(3) *Status of vessels pending appeal of DAS allocations*. While a vessel's individual DAS allocation is under appeal, the vessel may fish under the fleet DAS category until the Regional Administrator has made a final determination on the appeal. Any DAS spent fishing for regulated species by a vessel while that vessel's initial DAS allocation is under appeal, shall be counted against any DAS allocation that the vessel may ultimately receive.

(e) *Accrual of DAS*. Same as § 648.53(e).

(f) *Good Samaritan credit*. Same as § 648.53(f).

(g) *Spawning season restrictions*. A vessel issued a valid Small Vessel permit under paragraph (b)(3) of this section may not fish for, possess, or land regulated species from March 1 through March 20 of each year. Any other vessel issued a limited access multispecies permit must declare out and be out of the NE multispecies DAS program, as described in paragraph (b) of this section, for a 20-day period between March 1 and May 31 of each calendar year using the notification requirements specified in § 648.10. A vessel fishing under a Day gillnet category designation is prohibited from fishing with gillnet gear capable of catching multispecies during its declared 20-day spawning block, unless the vessel is fishing in an exempted fishery as described in § 648.80. If a vessel owner has not declared and been out for a 20-day period between March 1 and May 31 of each calendar year on or before May 12 of each year, the vessel is prohibited from fishing for, possessing or landing any regulated species or non-exempt species during the period May 12 through May 31, inclusive. If a vessel has taken a spawning season 20-day block out of the NE multispecies DAS program during May 1996, it is not required to take a 20-day block out of the NE multispecies DAS program in 1997. Beginning January 1, 1998, any such vessel must comply with the spawning season restriction specified in this part.

(h) *Declaring DAS and blocks of time out*. A vessel's owner or authorized representative shall notify the Regional Administrator of a vessel's participation in the DAS program, declaration of its 120 days out of the non-exempt gillnet fishery if designated as a Day gillnet category vessel, and declaration of its 20-day period out of the NE multispecies DAS program, using the notification requirements specified in § 648.10.

(i) *Adjustments in annual DAS allocations*. Adjustments in annual DAS allocations, if required to meet fishing mortality goals, may be made by the Regional Administrator following the framework procedures of § 648.90.

(j) *Restoration of unused DAS.* Vessels that held valid 1996 Amendment 5 NE multispecies permits in the Individual, Fleet or Combination Vessel categories are eligible for restoration of unused DAS if DAS fished during May and June 1996 was less than one-sixth of their 1996 Amendment 7 allocation. Restoration of DAS will be based on the NE multispecies permit category held on August 16, 1996. These vessels will be automatically credited with DAS equal to the difference between the proration reduction and their DAS fished during May and June 1996, as recorded in the NMFS call-in system specified at § 648.10(c) (or on other verifiable evidence of days spent fishing for multispecies). If the number of DAS fished during this time period exceeded the proration reduction amount, those days will not be subtracted from a vessel's 1996 allocation.

(k) *Gillnet restrictions.* Beginning August 1, 2002, vessels issued a limited access NE multispecies permit and fishing under a NE multispecies DAS with gillnet gear must obtain an annual designation as either a Day or Trip gillnet vessel as described in § 648.4(c)(2)(iii).

(1) *Day gillnet vessels.* A Day gillnet vessel fishing with gillnet gear under a multispecies DAS is not required to remove gear from the water upon returning to the dock and calling-out of the DAS program, provided the vessel complies with the restrictions specified in paragraphs (k)(1)(i) through (v) of this section. Vessels electing to fish under the Day gillnet designation must have on board written confirmation issued by the Regional Administrator, that the vessel is a Day gillnet vessel.

(i) *Number and size of nets.* Vessels may not fish with, haul, possess, or deploy more than the number of nets specified in paragraphs (k)(1)(i)(A) through (D) of this section, when fishing in the respective regulated mesh areas, provided the nets are tagged in accordance with paragraph (k)(1)(ii) of this section, unless otherwise specified in this paragraph. Such vessels, in accordance with § 648.23(b), may stow additional nets not to exceed 160, counting deployed nets. Nets may not be longer than 300 ft (91.4 m), or 50 fathoms, in length.

(A) A Day gillnet vessel fishing under a NE multispecies DAS and fishing in the GOM Regulated Mesh Area, as described in § 648.80(a)(1), may not fish with, haul, possess, or deploy more than 50 roundfish gillnets or 100 flatfish gillnets, except as provided in § 648.92(b)(8)(i). Vessels may fish any combination of roundfish and flatfish gillnets up to 100 nets, provided that the number of roundfish and flatfish gillnets does not exceed the limitations specified in this paragraph (k)(1)(i)(A).

(B) A Day gillnet vessel fishing under a NE multispecies DAS and fishing in the GB Regulated Mesh Area as described in § 648.80(a)(2), may not fish with, haul, possess, or deploy more than 50 nets, except as provided in § 648.92(b)(8)(i). Vessels may fish any combination of roundfish and flatfish gillnets, up to 50 nets.

(C) A Day gillnet vessel fishing under a NE multispecies DAS and fishing in the SNE Regulated Mesh Area as described in § 648.80(b)(1), may not fish with, haul, possess, or deploy more than 75 nets, except as provided in § 648.92(b)(8)(i). Vessels may fish any combination of roundfish and flatfish gillnets, up to 75 nets.

(D) A Day gillnet vessel fishing under a NE multispecies DAS and fishing in the Mid-Atlantic Regulated Mesh Area, as described in § 648.80(c)(1), may not fish with, haul, possess, or deploy more than 80 roundfish gillnets or 160 flatfish gillnets. Vessels may fish any combination of roundfish and flatfish gillnets, up to 160 nets, provided that the number of roundfish and flatfish gillnets does not exceed the limitations specified in this paragraph (k)(1)(i)(D).

(ii) *Tagging requirements.* When fishing under a NE multispecies DAS, all gillnets fished, hauled, possessed, or deployed by a vessel in the Day gillnet category, must be tagged according to the provisions specified in paragraphs (k)(1)(ii)(A) through (D) of this section, when fishing in the respective regulated mesh areas, or as otherwise specified under § 648.92(b)(8)(ii). Tags must be obtained as described in § 648.4(c)(2)(iii), and vessels must have on board written confirmation issued by the Regional Administrator, indicating that the vessel is a Day gillnet vessel. The vessel operator must

produce all net tags upon request by an authorized officer. A vessel may have tags on board in excess of the number of tags corresponding to the allowable number of nets, provided such tags are onboard the vessel and can be made available for inspection.

(A) When fishing in the GOM Regulated Mesh Area, roundfish nets must be tagged with two tags per net, with one tag secured to each bridle of every net, within a string of nets, and flatfish nets must have one tag per net, with one tag secured to every other bridle of every net within a string of nets.

(B) When fishing in the Mid-Atlantic Regulated Mesh Area, roundfish gillnets must be tagged with two tags per net, with one tag secured to each bridle of every net, within a string of nets, and flatfish gillnets must be tagged with one tag per net, with one tag secured to every other bridle of every net within a string of nets.

(C) When fishing in the GB Regulated Mesh Area, roundfish or flatfish gillnets must be tagged with 2 tags per net, with one tag secured to each bridle of every net, within a string of nets.

(D) When fishing in the SNE Regulated Mesh Area, roundfish or flatfish gillnets must be tagged with 2 tags per net, with one tag secured to each bridle of every net within a string of nets.

(iii) All gillnet gear is brought to port prior to the vessel fishing in an exempted fishery.

(iv) *Declaration of time out of the gillnet fishery.* (A) During each fishing year, vessels must declare, and take, a total of 120 days out of the non-exempt gillnet fishery. Each period of time declared and taken must be a minimum of 7 consecutive days. At least 21 days of this time must be taken between June 1 and September 30 of each fishing year. The spawning season time out period required by §648.82(g) will be credited toward the 120 days time out of the non-exempt gillnet fishery. If a vessel owner has not declared and taken, any or all of the remaining periods of time required by the last possible date to meet these requirements, the vessel is prohibited from fishing for, possessing, or landing regulated multispecies or non-exempt species harvested with gillnet gear, and from having gillnet gear on board the vessel

that is not stowed in accordance with §648.23(b), while fishing under a multispecies DAS, from that date through the end of the period between June 1 and September 30, or through the end of the fishing year, as applicable.

(B) Vessels shall declare their periods of required time out following the notification procedures specified in §648.10(f)(2).

(C) During each period of time declared out, a vessel is prohibited from fishing with non-exempted gillnet gear. However, the vessel may fish in an exempted fishery as described in §648.80, or it may fish under a multispecies DAS provided it fishes with gear other than non-exempted gillnet gear.

(v) *Method of counting DAS.* Day gillnet vessels fishing with gillnet gear under a multispecies DAS will accrue 15 hours DAS for each trip greater than 3 hours but less than or equal to 15 hours. Such vessels will accrue actual DAS time at sea for trips less than or equal to 3 hours or greater than 15 hours.

(2) *Trip gillnet vessels.* When fishing under a NE multispecies DAS, a Trip gillnet vessel is required to remove all gillnet gear from the water before calling out of a NE multispecies DAS under §648.10(c)(3), and must comply with the restrictions specified in paragraphs (k)(2)(i) and (ii) of this section. When not fishing under a NE multispecies DAS, Trip gillnet vessels may fish in an exempted fishery with gillnet gear as authorized under the exemptions described in §648.80. Vessels electing to fish under the Trip gillnet designation must have on board written confirmation issued by the Regional Administrator, that the vessel is a Trip gillnet vessel.

(i) *Number and size of nets.* Vessels may not fish with, haul, possess, or deploy more than the number of nets specified in paragraphs (k)(2)(i)(A) through (D) of this section, when fishing in the respective regulated mesh areas, provided the nets are tagged in accordance with paragraph (k)(1)(ii) of this section, unless otherwise specified in this paragraph. Such vessels, in accordance with §648.23(b), may stow nets in excess of the number specified in paragraph (k)(2)(i)(A) through (C). Nets

may not be longer than 300 ft (91.4 m), or 50 fathoms, in length.

(A) A Trip gillnet vessel fishing under a NE multispecies DAS and fishing in the GOM Regulated Mesh Area, as described in §648.80(a)(1), may not fish with, haul, possess, or deploy more than 150 gillnets, except as provided in §648.92(b)(8)(i). Vessels may fish any combination of roundfish and flatfish gillnets up to 150 nets.

(B) A Trip gillnet vessel fishing under a NE multispecies DAS and fishing in the GB Regulated Mesh Area as described in §648.80(a)(2), may not fish with, haul, possess, or deploy more than 50 nets, except as provided in §648.92(b)(8)(i). Vessels may fish any combination of roundfish and flatfish gillnets, up to 50 nets.

(C) A Trip gillnet vessel fishing under a NE multispecies DAS and fishing in the SNE Regulated Mesh Area as described in §648.80(b)(1), may not fish with, haul, possess, or deploy more than 75 nets, except as provided in §648.92(b)(8)(i). Vessels may fish any combination of roundfish and flatfish gillnets, up to 75 nets.

(D) A Trip gillnet vessel fishing under a NE multispecies DAS and fishing in the Mid-Atlantic Regulated Mesh Area is not subject to a restriction on number of allowable nets.

(ii) *Tagging requirements.* When fishing under a NE multispecies DAS, all gillnets fished, hauled, possessed, or deployed by a vessel in the Trip gillnet category, must be tagged according to the provisions specified in paragraphs (k)(2)(ii)(A) through (C) of this section, when fishing in the respective regulated mesh areas, or as otherwise specified under §648.92(b)(8)(ii) or under paragraph (k)(2)(ii)(D) of this section. Tags must be obtained as described in §648.4(c)(2)(iii), and vessels must have on board written confirmation issued by the Regional Administrator, indicating that the vessel is a Trip gillnet vessel. The vessel operator must produce all net tags upon request by an authorized officer. A vessel may have tags on board in excess of the number of tags corresponding to the allowable number of nets, provided such tags are on board the vessel and can be made available for inspection.

(A) When fishing in the GOM Regulated Mesh Area, roundfish or flatfish nets must be tagged with one tag per net, secured to every other bridle of every net within a string of nets.

(B) When fishing in the GB Regulated Mesh Area, roundfish or flatfish gillnets must be tagged with 2 tags per net, with one tag secured to each bridle of every net, within a string of nets.

(C) When fishing in the SNE Regulated Mesh Area, roundfish or flatfish gillnets must be tagged with 2 tags per net, with one tag secured to each bridle of every net within a string of nets.

(D) When fishing in the Mid-Atlantic Regulated Mesh Area, gillnets are not required to be tagged.

(3) *Lost tags.* Vessel owners or operators are required to report lost, destroyed, and missing tag numbers as soon as feasible after tags have been discovered lost, destroyed or missing, by letter or fax to the Regional Administrator.

(4) *Replacement tags.* Vessel owners or operators seeking replacement of lost, destroyed, or missing tags must request replacement of tags by letter or fax to the Regional Administrator. A check for the cost of the replacement tags must be received before tags will be re-issued.

(5) *Removal of nets from the water.* Gillnets must be removed from the water when the vessel's annual NE multispecies DAS allocation has been used.

(1) *Used DAS baseline and DAS reduction—(1) Used DAS baseline.* For all valid limited access NE multispecies permits and NE multispecies confirmation of permit histories (CPH), beginning with the 2002 fishing year, a vessel's used DAS baseline will be based on the fishing history associated with its permit and will be determined by the highest number of DAS fished during a single fishing year, as specified in paragraphs (l)(1)(i) through (iv) of this section, during the 5-year period from May 1, 1996, through April 30, 2001, not to exceed the vessel's annual allocation prior to August 1, 2002. If the highest number of DAS fished under such permit during a single fishing year is less than 10 DAS, the used DAS baseline will be 10 DAS. If a vessel that was originally issued a limited access NE

multispecies permit was lawfully replaced in accordance with the replacement restrictions specified in section §648.4(a), then the used DAS baseline will be defined based upon the DAS used by the original vessel and by subsequent vessel(s) associated with the permit during the 5-year period specified above.

(i) Except as provided in paragraphs (1)(1)(ii) through (iv) of this section, historic DAS use will be determined as specified under the DAS notification requirements in §648.10.

(ii) For a vessel exempt from or not subject to the DAS notification system, specified in §648.10, during the period May 1996 through June 1996, the vessel's used DAS baseline for that period will be defined based on the vessel's DAS use, calculated from vessel trip reports submitted to NMFS prior to April 9, 2002.

(iii) For a vessel enrolled in a Large Mesh DAS category, as specified in §648.82(b)(6) and (7), calculation of the used DAS baseline will be determined based on the highest number of DAS fished during a single fishing year during the 1996 through 2000 fishing years, from May 1, 1996, through April 30, 2001, not to exceed the vessel's allocation in any given year. That is, the used DAS baseline shall not be based on additional DAS the vessel fished under the Large Mesh DAS category.

(iv) For vessels fishing under the Day gillnet designation, as specified under §648.82(k)(1), used DAS, beginning on May 1, 1997 (implementation of differential DAS accounting for gillnet vessels, i.e., Framework Adjustment 20), for trips greater than 3 hours but less than or equal to 15 hours, will be counted as 15 hours. Trips less than or equal to 3 hours, or greater than 15 hours, will be counted as actual time.

(2) *DAS reduction.* For fishing years beginning May 1, 2002, and May 1, 2003, a NE multispecies DAS vessel, unless otherwise specified in paragraph (1)(2) of this section, shall be allocated 80 percent of its DAS baseline specified under paragraph (1)(1) of this section. An additional 36 percent will be subsequently added and available for use for participants in the Large Mesh DAS categories, as described at §648.80(b)(6) and (7), provided the participants com-

ply with the applicable gear restrictions.

(i) NE multispecies DAS fished by a vessel during the period May 1, 2002, through July 31, 2002, will be deducted from the DAS available for use for the 2002 fishing year, as calculated under §648.80(1)(2).

(ii) For vessels fishing under the Day gillnet designation, as specified in §648.82(k)(1), NE multispecies DAS for the period May 1, 2002, through July 31, 2002, for trips greater than 3 hours, but less than or equal to 15 hours, will be counted as 15 hours. Trips less than or equal to 3 hours, or greater than 15 hours, will be counted as actual time.

(iii) For vessels fishing with gear other than gillnet gear, NE multispecies DAS used for the period May 1, 2002, through July 31, 2002, will be counted as actual time.

(iv) Beginning on August 1, 2002, if the number of DAS used by a vessel during the May 1 through July 31, 2002, period equals or exceeds the number of DAS available for use calculated by NMFS as described in this section, the number of DAS available for use for the remainder of the 2002 fishing year will be zero, unless the vessel has available carry-over days from the previous fishing year, as specified under paragraph (a)(1) of this section.

(3) *Correction of used DAS baseline.* (i) A vessel's used DAS baseline as determined under paragraph (1)(1) of this section, may be corrected, if a mistake has been made, by submitting a written request to correct the DAS baseline. The request to correct must be received by the Regional Administrator no later than August 31, 2002. The request to correct must be in writing and provide credible evidence that the information used by the Regional Administrator in making the determination of the vessel's DAS baseline was based on mistaken or incorrect data. The decision on whether to correct the DAS baseline shall be determined solely on the basis of written information submitted, unless the Regional Administrator specifies otherwise. The Regional Administrator's decision on whether to correct the DAS baseline is the final decision of the Department of Commerce.

**§ 648.83**

(ii) *Status of vessel's pending request for a correction of used DAS baseline.* While a vessel's request for a correction is under consideration, the vessel is limited to fishing with the number of DAS in accordance with § 648.82(1).

[61 FR 34968, July 3, 1996, as amended at 62 FR 2620, Jan. 17, 1997; 62 FR 14650, Mar. 27, 1997; 62 FR 15388, Apr. 1, 1997; 62 FR 37156, July 11, 1997; 62 FR 49149, Sept. 19, 1997; 63 FR 11595, Mar. 10, 1998; 63 FR 42592, Aug. 10, 1998; 64 FR 24076, May 5, 1999; 65 FR 379, Jan. 5, 2000; 65 FR 21666, Apr. 24, 2000; 65 FR 37915, June 19, 2000; 67 FR 50318, Aug. 1, 2002]

**§ 648.83 Multispecies minimum fish sizes.**

(a) *Minimum fish sizes.* (1) Minimum fish sizes for recreational vessels and charter/party vessels that are not fishing under a NE multispecies DAS are specified in § 648.89. Except as provided in § 648.17, all other vessels are subject to the following minimum fish sizes, determined by total length (TL):

MINIMUM FISH SIZES (TL) FOR COMMERCIAL VESSELS

Species	Sizes (inches)
Cod .....	22 (55.9 cm)
Haddock .....	19 (48.3 cm)
Pollock .....	19 (48.3 cm)
Witch flounder (gray sole) .....	14 (35.6 cm)
Yellowtail flounder .....	13 (33.0 cm)
American plaice (dab) .....	14 (35.6 cm)
Atlantic halibut .....	36 (91.4 cm)
Winter flounder (blackback) .....	12 (30.5 cm)
Redfish .....	9 (22.9 cm)

(2) The minimum fish size applies to whole fish or to any part of a fish while possessed on board a vessel, except as provided in paragraph (b) of this section, and to whole, whole gutted or gilled fish only, after landing. For purposes of determining compliance with the possession limits in § 648.86, the weight of fillets and parts of fish, other than whole-gutted or gilled fish, will be multiplied by 3. Fish fillets, or parts of fish, must have skin on while possessed on board a vessel and at the time of landing in order to meet minimum size requirements. "Skin on" means the entire portion of the skin normally attached to the portion of the fish or to fish parts possessed is still attached.

(b) *Exceptions.* (1) Each person aboard a vessel issued a multispecies limited access permit and fishing under the DAS program may possess up to 25 lb

**50 CFR Ch. VI (10-1-02 Edition)**

(11.3 kg) of fillets that measure less than the minimum size if such fillets are from legal-sized fish and are not offered or intended for sale, trade, or barter. For purposes of determining compliance with the possession limits specified in § 648.86, the weight of fillets and parts of fish, other than whole-gutted or gilled fish, will be multiplied by 3.

(2) Recreational, party, and charter vessels may possess fillets less than the minimum size specified, if the fillets are taken from legal-sized fish and are not offered or intended for sale, trade or barter.

(3) Vessels fishing exclusively with pot gear may possess multispecies frames used, or to be used, as bait that measure less than the minimum fish size, if there is a receipt for purchase of those frames on board the vessel.

(c) *Adjustments.* (1) At any time when information is available, the NEFMC will review the best available mesh selectivity information to determine the appropriate minimum size for the species listed in paragraph (a) of this section, except winter flounder, according to the length at which 25 percent of the regulated species would be retained by the applicable minimum mesh size.

(2) Upon determination of the appropriate minimum sizes, the NEFMC shall propose the minimum fish sizes to be implemented following the procedures specified in § 648.90.

(3) Additional adjustments or changes to the minimum fish sizes specified in paragraph (a) of this section, and exemptions as specified in paragraph (b) of this section, may be made at any time after implementation of the final rule as specified under § 648.90.

[61 FR 34968, July 3, 1996, as amended at 61 FR 49277, Sept. 19, 1996; 63 FR 11595, Mar. 10, 1998; 63 FR 42592, Aug. 10, 1998; 64 FR 24076, May 5, 1999; 64 FR 55827, Oct. 15, 1999; 67 FR 50320, Aug. 1, 2002]

**§ 648.84 Gear-marking requirements and gear restrictions.**

(a) Bottom-tending fixed gear, including, but not limited to, gillnets and longlines designed for, capable of, or fishing for NE multispecies or monkfish, must have the name of the owner or vessel or the official number of that vessel permanently affixed to
