

(if applicable) and mesh configurations for fishing for small-mesh multispecies, adjustments to whiting stock boundaries for management purposes, adjustments for fisheries exempted from minimum mesh requirements to fish for small-mesh multispecies (if applicable), season adjustments, declarations, and participation requirements for the Cultivator Shoal Whiting Fishery Exemption Area.

(ii) *Adjustment process for Whiting TACs and DAS.* The Council may develop recommendations for a Whiting DAS effort reduction program or a Whiting TAC through the framework process outlined in paragraph (c)(1) of this section only if these options are accompanied by a full set of public hearings that span the area affected by the proposed measures in order to provide adequate opportunity for public comment.

(2) *Adjustment process for gear conflicts.* The Council may develop a recommendation on measures to address gear conflict as defined under 50 CFR 600.10, in accordance with the procedure specified in § 648.55(d) and (e).

(3) *NEFMC recommendation.* After developing management actions and receiving public testimony, the NEFMC shall make a recommendation to the Regional Administrator. The NEFMC's recommendation must include supporting rationale and, if management measures are recommended, an analysis of impacts and a recommendation to the Regional Administrator on whether to issue the management measures as a final rule. If the NEFMC recommends that the management measures should be issued as a final rule, the NEFMC must consider at least the following factors and provide support and analysis for each factor considered:

(i) Whether the availability of data on which the recommended management measures are based allows for adequate time to publish a proposed rule, and whether regulations have to be in place for an entire harvest/fishing season.

(ii) Whether there has been adequate notice and opportunity for participation by the public and members of the affected industry in the development of

the NEFMC's recommended management measures.

(iii) Whether there is an immediate need to protect the resource or to impose management measures to resolve gear conflicts.

(iv) Whether there will be a continuing evaluation of management measures adopted following their implementation as a final rule.

(4) *Regional Administrator action.* If the NEFMC's recommendation includes adjustments or additions to management measures and, after reviewing the NEFMC's recommendation and supporting information:

(i) If the Regional Administrator concurs with the NEFMC's recommended management measures and determines that the recommended management measures should be issued as a final rule based on the factors specified in paragraph (b)(2) of this section, the measures will be issued as a final rule in the FEDERAL REGISTER.

(ii) If the Regional Administrator concurs with the NEFMC's recommendation and determines that the recommended management measures should be published first as a proposed rule, the measures will be published as a proposed rule in the FEDERAL REGISTER. After additional public comment, if the Regional Administrator concurs with the NEFMC recommendation, the measures will be issued as a final rule in the FEDERAL REGISTER.

(iii) If the Regional Administrator does not concur, the NEFMC will be notified in writing of the reasons for the non-concurrence.

(c) Nothing in this section is meant to derogate from the authority of the Secretary to take emergency action and interim measures under section 305(c) of the Magnuson-Stevens Act.

§ 648.91 Monkfish regulated mesh areas and restrictions on gear and methods of fishing.

All vessels fishing for, possessing or landing monkfish must comply with the following minimum mesh size,

gear, and methods of fishing requirements, unless otherwise exempted or prohibited:

(a) *Northern Fishery Management Area (NFMA)—Area definition.* The NFMA (copies of a chart depicting the area are available from the Regional Administrator upon request) is that area defined by a line beginning at the intersection of 70° W. longitude and the south-facing shoreline of Cape Cod, MA (point A), then southward along 70° W. longitude to 41° N. latitude, then eastward to the U.S.-Canada maritime boundary, then in a northerly direction along the U.S.-Canada maritime boundary until it intersects the Maine shoreline, and then following the coastline in a southerly direction until it intersects with point A.

(b) *Southern Fishery Management Area (SFMA)—Area definition.* The SFMA (copies of a chart depicting the area are available from the Regional Administrator upon request) is that area defined by a line beginning at point A, then in a southerly direction to the NC-SC border, then due east to the 200-mile limit, then in a northerly direction along the 200-mile limit to the U.S.-Canada maritime boundary, then in a northwesterly direction along the U.S.-Canada maritime boundary to 41° N. latitude, and then westward to 70° W. longitude, and finally north to the shoreline at Cape Cod, MA (point A).

(c) *Gear restrictions—(1) Minimum mesh size—*(i) *Trawl nets while on a monkfish DAS.* Except as provided in paragraph (c)(1)(ii) of this section, the minimum mesh size for any trawl net, including beam trawl nets, used by a vessel fishing under a monkfish DAS is 10-inch (25.4-cm) square or 12-inch (30.5-cm) diamond mesh throughout the codend for at least 45 continuous meshes forward of the terminus of the net. The minimum mesh size for the remainder of the trawl net is the regulated mesh size specified under § 648.80(a)(3), (a)(4), (b)(2)(i), or (c)(2)(i) of the Northeast multispecies regulations, depending upon and consistent with the NE multispecies regulated mesh area being fished.

(ii) *Trawl nets while on a monkfish and NE multispecies DAS.* For vessels issued a Category C or D limited access monkfish permit and fishing with trawl

gear under both a monkfish and NE multispecies DAS, the minimum mesh size is that allowed under regulations governing mesh size at § 648.80(a)(3), (a)(4), (b)(2)(i), or (c)(2)(i), depending upon, and consistent with, the NE multispecies regulated mesh area being fished.

(iii) *Gillnets while on a monkfish DAS.* The minimum mesh size for any gillnets used by a vessel fishing under a monkfish DAS is 10-inches (25.4 cm) diamond mesh.

(iv) *Authorized gear while on a monkfish and scallop DAS.* Vessels issued a Category C or D limited access monkfish permit and fishing under a monkfish and scallop DAS may only fish with and use a trawl net with a mesh size no smaller than that specified in paragraph (c)(1)(i) of this section.

(2) *Other gear restrictions.* (i) A vessel may not fish with dredges or have dredges on board while fishing under a monkfish DAS.

(ii) All other non-conforming gear must be stowed as specified in § 648.23(b).

(iii) The mesh size restrictions in paragraph (c)(1) of this section do not apply to nets or pieces of nets smaller than 3 ft (0.9 m) x 3 ft (0.9 m), (9 ft² (0.81 m²)).

[64 FR 54747, Oct. 7, 1999, as amended at 65 FR 37917, June 19, 2000; 67 FR 50323, Aug. 1, 2002]

§ 648.92 Effort-control program for monkfish limited access vessels.

(a) *General.* A vessel issued a limited access monkfish permit may not fish for, possess, retain, or land monkfish, except during a DAS as allocated under and in accordance with the applicable DAS program described in this section, except as otherwise provided in this part.

(1) *End-of-year carry-over.* With the exception of vessels that held a Confirmation of Permit History as described in § 648.4(a)(1)(i)(J) for the entire fishing year preceding the carry-over year, limited access vessels that have unused DAS on the last day of April of any year may carry over a maximum of 10 unused DAS into the next fishing year. Any DAS that have been forfeited due to an enforcement proceeding will be deducted from all
