

§ 679.8

the GOA” definitions in § 679.2 during the same fishing year.

(vi) (Applicable through July 8, 2002) Operate any vessel in the GOA under both the “inshore component in the GOA” and the “offshore component in the BSAI” or under both the “offshore component in the GOA” and the “inshore component in the BSAI” definitions in § 679.2 during the same fishing year.

(vii) (Applicable through July 8, 2002) Operate any vessel that processes pollock or Pacific cod, harvested in a directed fishery for those species, at a single location in Alaska State waters under the “inshore component in the BSAI” and the “inshore component in the GOA” definitions in § 679.2 during the same fishing year.

* * * * *

2. At 67 FR 18139, Apr. 15, 2002, § 679.7 was amended by removing paragraph (d)(26), and revising paragraphs (d)(11), (d)(16), (d)(23), and (f)(8), effective May 15, 2002.

3. At 67 FR 21604, May 1, 2002, § 679.7 was amended by correcting paragraph (a)(18), effective June 10, 2002, through July 8, 2002, suspending paragraph (f)(8) from May 1, 2002, until July 8, 2002, and by adding paragraph (f)(16), effective May 1, 2002, through July 8, 2002. At 67 FR 34860, May 16, 2002, the effective date was extended through Dec. 31, 2002.

§ 679.8 Facilitation of enforcement.

See § 600.730 of this chapter.

§ 679.9 Penalties.

See § 600.735 of this chapter.

Subpart B—Management Measures

§ 679.20 General limitations.

This section applies to vessels engaged in directed fishing for groundfish in the GOA and BSAI.

(a) *Harvest limits*—(1) *OY*. The OY for BSAI and GOA target species and the “other species” category is a range that can be harvested consistently with this part, plus the amounts of “nonspecified species” taken incidentally to the harvest of target species and the “other species” category. The species categories are defined in Table 1 of the specifications as provided in paragraph (c) of this section.

(i) *BSAI*. The OY for groundfish in the BSAI regulated by this section and

by part 600 of this chapter is 1.4 to 2.0 million mt.

(ii) *GOA*. The OY for groundfish in the GOA regulated by this section and by part 600 of this chapter is 116,000 to 800,000 mt.

(2) *TAC*. NMFS, after consultation with the Council, will specify and apportion the annual TAC and reserves for each calendar year among the GOA and BSAI target species and the “other species” categories. TACs in the target species category may be split or combined for purposes of establishing new TACs with apportionments thereof under paragraph (c) of this section. The sum of the TACs so specified must be within the OY range specified in paragraph (a)(1) of this section.

(3) *Annual TAC determination*. The annual determinations of TAC for each target species and the “other species” category, and the reapportionment of reserves may be adjusted, based upon a review of the following:

(i) *Biological condition of groundfish stocks*. Resource assessment documents prepared annually for the Council that provide information on historical catch trend; updated estimates of the MSY of the groundfish complex and its component species groups; assessments of the stock condition of each target species and the “other species” category; assessments of the multispecies and ecosystem impacts of harvesting the groundfish complex at current levels, given the assessed condition of stocks, including consideration of rebuilding depressed stocks; and alternative harvesting strategies and related effects on the component species group.

(ii) *Socioeconomic considerations*. Socioeconomic considerations that are consistent with the goals of the fishery management plans for the groundfish fisheries of the BSAI and the GOA, including the need to promote efficiency in the utilization of fishery resources, including minimizing costs; the need to manage for the optimum marketable size of a species; the impact of groundfish harvests on prohibited species and
